PROCEEDINGS OF THE SOCIETY FOR ENDOCRINOLOGY

21 May 1953

Thirty-ninth Ordinary Meeting. Symposium on the Determination of Adrenocortical Steroids and their Metabolites

23 June 1953

Fortieth (Special) Meeting

Charles Huggins. The prostatic glands as targets for steroids

22 October 1953

Forty-first General Meeting

Mary F. Lockett, E. H. Howard and the late G. M. Findlay. The effect of hypophysectomy on the resistance of mice to poliomyelitis virus, strain M.E.F. i

T. Mann and T. Glover. Contribution of the seminal vesicles towards the composition of whole semen

M. Roberts. The effect of a histaminase inhibitor (aminoguanidine) on pregnancy in rats

D. Ingram and P. L. Krohn. Homotransplantation of ovarian tissue

Jennifer Lloyd and D. A. Long. Cortisone toxicity and protein metabolism

A. S. Parkes. Transplantation of testis tissue after storage at very low temperatures

June East. The oestrogenic activity of some leguminous plants

17 December 1953

Forty-second Ordinary Meeting

I. Chester Jones. The effects of adrenalectomy on the rat with diabetes insipidus

D. F. Cole. Electrolyte excretion during diuresis in normal and adrenalectomized rats

H. F. West. Some observations on the urinary excretion of 17-ketosteroids and 17-keto-genic steroids in patients receiving ACTH

G. L. Hunter. Attempts to synchronize the occurrence of oestrus in sheep as a preliminary to ovum transplantation

P. Mary Cotes. The weights of litters produced by female rats treated with anterior pituitary growth hormone during pregnancy

J. H. Wilkinson and N. F. MacLagan. Relative rates of deiodination of thyroxine and triiodothyronine in the rat
A clinical experiment in adrenocortical steroid antagonism xvi

S. J. Klebanoff and A. L. Greenbaum. A mechanism for the diabetogenic action of alloxan xix
