Forthcoming papers

Seasonal changes in plasma androgens, glucocorticoids and glucocorticoid-binding proteins in the marsupial sugar glider Petaurus breviceps. A. J. Bradley & D. M. Stoddart.
Effects of cytokines on rat insulinoma INS-1 cells. D. Janjic & M. Asfari.
Arachidonic acid-induced LH release is ATP-independent and insensitive to N-ethyl maleimide. P. V. Kaye, P. A. van der Merwe, R. P. Millar & J. S. Davidson.
The role of sex steroids in the formation of sex-differentiated concentrations of corticosteroid-binding globulin in rats. G. D. Mataradze, R. M. Kurabekova & V. B. Rozen.
Expression of an abundant a-class glutathione S-transferase in bovine and human adrenal cortex tissues. I. Meikle, J. D. Hayes & S. W. Walker.
Relaxin increases the firing rate of suprarenal sympathetic neurones and increases oxytocin secretion in the rat. S. A. Way & G. Leng.

Announcements

11th Joint Meeting of the British Endocrine Society

This meeting will be held at the Harrogate International Centre from 23 to 26 March 1992. The Chairman of the Programme Organizing Committee is Professor P. Kendall-Taylor from Newcastle and the Local Organizing Committee is chaired by Professor I. Henderson from Sheffield.

Symposia:
- Hormones and Cell Death:
  - Androgens in the Female:
  - Peripheral Steroid Synthesis and Metabolism:
  - Single Cell Endocrinology:
  - Endocrine Cell Growth and Neoplasia:
  - Recombinant Hormones.

Clinical Management Workshops:
- Growth Hormone Treatment for the Adult:
  - Management of Congenital Adrenal Hyperplasia:
  - Stimulating Ovaries:
  - Clinical Controversies.

Research Colloquia:
- Peptide Hormone Binding Proteins:
  - Paracrinology of the Gonads.

Thyroid Club Pitt-Rivers Lecture: J. Nauman, Warsaw.
Royal Society of Medicine Guest Lecture: P. R. Larsen, Boston.

A surcharge will be added to registrations received after 3 February 1992.
Further details are available from Janet Crompton, Administrative Officer, Society for Endocrinology, 17/18 North Court, The Courtyard, Woodlands, Almondsbury, Bristol BS12 4NQ, United Kingdom. Tel: 0454 616046; Fax: 0454 616071.

Travel Awards – IX International Congress of Endocrinology

The Awards Committee of the International Society of Endocrinology (ISE) is prepared to make travel grants for the above meeting to be held in Nice, France from 30 August to 5 September 1992. The Committee will screen and rank the applicants. The awards will be 80% of the Apex fare from your home airport to Nice. Application forms may be obtained from the Secretary General, ISE, 51–53 Bartholomew Close, London, EC1A 7BE, U.K. Tel: 071 606 4012; Fax: 071 796 4676.
Awards will be made by the Awards Committee. Preference will be given to young endocrinologists and/or endocrinologists from Third World countries who have demonstrated interest in endocrine research. These awards are intended for individuals who have no other source of funds to attend the Congress. The deadline for receipt of completed applications is 1 February 1992. Notification of awards will be made in March 1992.

**1992 Curt P. Richter Prize in Psychoneuro-endocrinology**

The International Society of Psychoneuroendocrinology (ISPNE) invites submission of manuscripts for the Curt P. Richter Prize 1992. The award includes an honorarium of US $1000 (offered by the Society) to the 23rd International Congress of the ISPNE in Madison, U.S.A., in 1992 where the prize will be awarded. The winning paper will automatically be considered for publication in the journal *Psychoneuroendocrinology*.

The deadline for submission is 31 January 1992. All submissions will be screened by a committee of established psychoneuroendocrinologists. The manuscript should describe original research, or be a review with emphasis on the author's original research, in the field of (psycho)neuroendocrinology. Only unpublished papers are eligible, and the manuscript must be in a format suitable for publication in *Psychoneuroendocrinology*. The author may not have attained his/her 40th birthday by 1 January 1992. Only one author is eligible for the Prize. If, for administrative reasons, the paper must bear the names of senior authors, written waiver of consideration for the Prize must be submitted by these authors at the time of submission of the manuscript.

Authors should submit manuscripts (an original plus five copies) to: Professor Dr Jean J. Legros, Psychoneuroendocrinology Section, CHU (B23), Sart Tilman, B-4000 Liège, Belgium.

**Steroid Reference Collection**

The Steroid Reference Collection supplies samples of steroids and related compounds for use in clinical and biochemical studies, such as the identification of novel metabolites, and the development and standardisation of micro-assay and separation techniques. Over 4000 different compounds are available, many of them donated by eminent scientists, especially upon retirement. Financial support from the UK Medical Research Council and the US National Institutes of Health, which has enabled the Collection to operate since 1954, is unfortunately coming to an end, but Dr Alfred Bader has kindly agreed to take charge of the samples as part of the Alfred Bader Library of Rare Chemicals.

During a transitional period until 30 September 1992, requests for samples and information should continue to be addressed to the Curator of the Collection: Professor D. N. Kirk, Department of Chemistry, Queen Mary and Westfield College, Mile End Road, London E1 4NS, U.K. Tel: 071 975 5555 ext 3744; Fax: 081 981 8745. There will be a uniform handling charge of £20 sterling for each sample supplied. After September 1992, enquiries should be addressed to: The Alfred Bader Library of Rare Chemicals, The Aldrich Chemical Company, P.O. Box 355, Milwaukee, Wisconsin 53201, U.S.A.

**12th International Congress on Animal Reproduction**

The congress from 23 to 27 August 1992 in The Hague, The Netherlands, covers main trends in animal reproduction and artificial insemination as well as novel developments. The four Plenary Sessions comprise 2-4 state of the art lectures. Invited speakers will present in-depth lectures at the 12 Symposia. Current research and novel developments will be presented at Poster Sessions and 19 Workshops. For additional information please contact the Congress Secretary: Dr. Stephan Dieleman, c/o Holland Organizing Centre, Lange Voorhout 16, 2514 EE The Hague, The Netherlands. Tel: (31) 70 36 57 850; Fax: (31) 70 36 14 846.

**Workshop on the Biology of Lactation in Farm Animals**

The European Association for Animal Production (EAAP) and the American Society of Animal Science (ASAS) are jointly hosting a 2-day Workshop on the Biology of Lactation in Farm Animals in Madrid, Spain (11-12 September, 1992), just prior to the 43rd EAAP Annual Meeting. The workshop will include ten invited speakers, short communications and poster presentations, all of which will be published. The sub-themes of the workshop are: ‘Growth factor regulation of mammary development’ (day 1), ‘Biology and manipulation of milk protein properties’ (day 2) and ‘Lactation in the sow’ (day 2). For further information contact: Denis Petitclerc, INRA, Unité de Differentiation Cellulaire, Batiment des Biotech., 78352 Jouy-en-Josas, Cedex, France. Tel: 33 1 34 65 25 46; Fax: 33 1 34 65 22 73.

Subject index

Activin, regulatory roles for, human ovary (Hillier) 171
Adenylate cyclase, activity of, age-related changes in, rat pituitary (Parenti et al.) 251
Adipocytes, regulation of proliferation of, fowl (Butterworth & Goddard) 203
Adipose tissue, IGF-I mRNA in, GH and, rat (Vikman et al.) 139
Adrenal cortex, cultured, regulation of steroidogenesis, effect of adrenoline, cattle (Ehrhart-Bornstein et al.) R5
Adrenalin, regulation of steroidogenesis, cultured adrenocortical cells, cattle (Ehrhart-Bornstein et al.) R5
Adrenocorticotropic (ACTH), CRH-41-induced secretion of, ANP and, man (Ur et al.) 163
Ag, and GH release, rat (Parenti et al.) 251
Albumin, and metabolism of plasma steroids, man (Tait & Tait) 339
Alkaline phosphatase, plasma, cholecalciferol and, mole rat (Buffenstein et al.) 197
γ-Aminobutyric acid (GABA), receptors for, and uterine motility, rabbit (Majewska & Vaupe1) 427
Amniotic, endothelin in, man (van Papendorp et al.) 507
Amphibian, effects of β-endorphin/naloxone on corticosterone/cortisol release (Zerani & Gobbi) 295
Androgen, and prostate growth (Davies & Eaton) 5
synthesis of, effects of inhibin and activin on, man (Hiller) 171
Androstenedione, production of, Tf/m mouse (Murphy & O'Shaughnessy) 443
Angiotensin, in cultured epididymal epithelium, rat (Wong & Uchendu) 287
Antler, growth of first, LH/testosterone and, red deer (Suttie et al.) 467
Arachidonic acid, and LH secretion, sheep (Nangalama & Moberg) 87
Arginine vasopressin (AVP), effects of, on endometrial stromal cells, man (Endo et al.) 313
Aromatase, activity of, transferrin and, rat granulosa cells (Li et al.) 245
ATP, β cell content of, streptozotocin and, rat (Sofue et al.) 135
Atrial natriuretic factor (ANF), receptors for, rat myometrium (Potvin & Varma) 259
release of, during oestrous cycle, hypophysectomy and, rat (Sheward et al.) 133
Atrial natriuretic peptide (ANP), and the response to CRH-41, man (Ur et al.) 163
Autoimmunity, parathyroid, non-obese diabetic mouse (Krug et al.) 193
Betamethasone, and GH secretion, rat (Miel et al.) 75
Binding sites, oxytocin, guinea-pig ovary (Zhang et al.) 421
Blood, flow of, effect of PTH and PGE2 on, rat bone (Cochrane & McCarthy) 359
Bombesin, effects of, on endometrial stromal cells, man (Endo et al.) 313
Bone, blood flow and strontium clearance in, effect of PTH and PGE2, rat (Cochrane & McCarthy) 359
Bone marrow, -derived cells, prostaglandin production by, human decidua (Norwitz et al.) 327
Bradykinin, effects of, on endometrial stromal cells, man (Endo et al.) 313
Calcium, cytosolic free, growth factors and, human endometrial stromal cells (Endo et al.) 313
loop transport of, diabetes and, rat (Garland et al.) 373
metabolism of, cholecalciferol and, mole rat (Buffenstein et al.) 197
Calmodulin-kinase II, in parathyroid glands, man (Kato et al.) 155
Cancer, prostate, control of growth in (Davies & Eaton) 5
Carbonylcyanide-m-chlorobenzyl, and nicotineamide uptake, rat β cells (Sofue et al.) 135
Carcass composition, GH and, mouse (Bootland et al.) 19
GH immunization and, lamb (Pell & Aston) R1
Catecholamines, vanadate and, diabetic rat (Brichard et al.) 185
Cattle, control of FSH secretion (Price) 177
cultured adrenocortical cells, steroidogenesis, effect of adrenalin (Ehrhart-Bornstein et al.) R5
IGFBPs in mammary secretions (Skara et al.) 127
β Cells, nicotinamide uptake and streptozotocin (Sofue et al.) 135
Cholesterol side-chain cleavage, activity of, after EDS, rat testis (O'Shaughnessy & Murphy) 451
Cholesterol side-chain cleavage cytochrome P450, mRNA accumulation, effect of adrenalin, cultured adrenocortical cells, cattle (Ehrhart-Bornstein et al.) R5
Chorion, endothelin in, man (van Papendorp et al.) 507
Clonidine, and hypothalamic GHRH and somatostatin, rat (Gil-Ad et al.) 381
Cloprostenol, antagonadotropic action of, hCG and, man (Michael et al.) 319
Colostrom, IGFBPs in, cattle (Skara et al.) 127
Conceptional secretory proteins, and endometrial oxytocin receptors, sheep (Vallet & Lamming) 475
Corpus luteum, interferon-α and (Chard) 337
Corticosterone, plasma, vanadate and, diabetic rat (Brichard et al.) 185
release of, effect of β-endorphin and naloxone on, newt (Zerani & Gobbi) 295
Corticosterone-releasing hormone-41 (CRH-41), response to, ANP and, man (Ur et al.) 163
Cortisol, and LH secretion, sheep (Nangalama & Moberg) 87
CRH-41-induced secretion of, ANP and, man (Ur et al.) 163
plasma, metabolism of, man (Tait & Tait) 339
release of, effect of β-endorphin and naloxone on, newt (Zerani & Gobbi) 295
Cortisone, and EGF, suckling rat (Schaudies et al.) 95
Cryptomys damaensis, cholecalciferol and mineral balance (Buffenstein et al.) 197
Cyclic AMP, accumulation of, by thyroid cells in follicular culture, man (Kraiem et al.) 499
and the antagonadotropic action of cloprostenol, man (Michael et al.) 319
cell density and, cultured anterior pituitary cells, rat (Sugimoto et al.) 237
Decidua, progestaglandin-producing cells in, man (Norwitz et al.) 327
Deer, red, LH and testosterone in young stags (Suttie et al.) 467
2-Deoxyglucose, uptake of, streptozotocin and, rat β cells (Sofue et al.) 135
Diabetes, and IGFBPs, rat (Cortizo & Cagliardino) 33
and LH secretion, rat (Dong et al.) 49
and loop calcium transport, rat (Garland et al.) 373
insulin sensitivity in offspring of rats with, effect of pregnancy (Holemans et al.) 387
oral insulin in, dog (Saffran et al.) 267
vanadate and insulin counter-regulatory hormones in, rat (Brichard et al.) 185
Differential equation solver, in model for splanchnic extraction of steroids, man (Tait & Tait) 339
DNA, regulation of synthesis of, adipocyte precursor cells, fowl (Butterworth & Goddard) 203
synthesis of, growth factors and, human endometrial stromal cells (Endo et al.) 313
Dog, oral insulin in diabetes (Saffran et al.) 267

Journal of Endocrinology (1991) 131, 515–522
Inositol phosphates, accumulation of, growth factors and, human endometrial stromal cells (Endo et al.) 313
Insulin, oral, diabetic dog (Saffran et al.) 267
resistance to, vanadate and, diabetic rat (Brichard et al.) 185
insulin-like, binding to, to IGFBPs, diabetes and, rat (Cortizo & Caglìardino) 33
expression of mRNA for, during development, hypothyroid rat (Gallo et al.) 367
mRNA for, GH and, rat adipose tissue (Vikman et al.) 139
secretion and activity of, in, mouse (Gargosky et al.) 67
mRNA binding to tissue, and, activity transfer testicular, and, secretion, hCG (Prosser et al.) 459
Insulin-like growth factor-I (IGF-I), and growth regulation, G. mirabilis (Gray & Kelley) 57
binding of, to IGFBPs, diabetes and, rat (Cortizo & Caglìardino) 33
secretions of, and, testicular, and, serum, microencapsulated histrelin and, rat (Gunn et al.) 211
secretion of, young red deer stags (Sutie et al.) 467
Insulin-like growth factor-II (IGF-II), expression of mRNA for, during development, hypothyroid rat (Gallo et al.) 367
serum, human pregnancy (Gargosky et al.) 491
testicular, GH and, rat (Spiteri-Grech et al.) 279
transfer of, from blood into milk (Prosser et al.) 459
Insulin-like growth factor-II (IGF-II), expression of mRNA for, during development, hypothyroid rat (Gallo et al.) 367
serum, human pregnancy (Gargosky et al.) 491
Insulin-like growth factor-binding proteins (IGFBPs), diabetes and, rat (Cortizo & Caglìardino) 33
in mammary secretions, cattle (Skaar et al.) 127
in non-islet-cell tumour-associated hypoglycaemia, in man (Cotterill et al.) 303
serum, human pregnancy (Gargosky et al.) 491
Insulin-like growth factors (IGFs), and proliferation of adipocytes, fowl (Butterworth & Goddard) 203
in non-islet-cell tumour-associated hypoglycaemia, man (Cotterill et al.) 303
Interferon-α, reproductive role of (Chard) 337
Interferon α-1, and endometriai oxytocin receptors, sheep (Vallet & Lamming) 475
Intergenital gland, regulation of corticosteroidogenesis in, newt (Zerani & Gobbetti) 295
Iodide, organisation of, monoamine oxidase and, rat thyroid (Cabanillas et al.) 25
uptake of, by thyroid cells in follicular culture, man (Kraiem et al.) 499
17-Ketosteroid reductase, activity of, after EDS, rat testis (O'Shaughnessy & Murphy) 451
activity of, Tfm mouse (Murphy & O'Shaughnessy) 443
Kidney, modulation of EGF in, suckling rat (Schaudies et al.) 95
K-N-62, and calmodulin-kinase II activity, man (Kato et al.) 155
Lactation, transfer of IGF-I into milk during, goat (Prosser et al.) 459
Lean tissue, growth of, effect of GH immunization on, lamb (Pell & Aston) R1
Leydig cells, destruction of, steroidogenic enzyme activity after, rat (O'Shaughnessy & Murphy) 451
function of, heat and, ram (Setchell et al.) 101
steroidogenesis in, Tfm mouse (Murphy & O'Shaughnessy) 443
Liver, effect of thyroid state and cold on mitochondria, rat (Iossa et al.) 67
expression of IGF-I and IGF-II mRNA in, during development, hypothyroid rat (Gallo et al.) 367
modulation of EGF in, suckling rat (Schaudies et al.) 95
steroid extraction by, man (Tait & Tait) 339
Loop of Henle, calcium transport in, diabetes and, rat (Garland et al.) 373
Luteinising hormone (LH), activin/inhibin and, man (Hillier) 171
and antiprolactin action of clomoprostanol, man (Michael et al.) 319
first spontaneous surge of, MK-801 and, female rat (Meij-Roelofs et al.) 435
hCG and, male athletes (Cowan et al.) 147
secretion of, diabetic rat (Dong et al.) 49
secretion of, LH and, sheep (Nangalam & Moberg) 87
Macrophages, prostaglandin production by, human decidua (Norwitz et al.) 327
Mammary gland, secretions from, IGFBPs in, cattle (Skaar et al.) 127
transport of IGF-I across, goat (Prosser et al.) 459
Man, administration of hCG in athletes (Cowan et al.) 147
ANO and the response to CRH-41 (Ur et al.) 163
calmodulin-kinase II in parathyroid glands (Kato et al.) 155
effects of growth factors on endometrial stromal cells (Endo et al.) 313
endothelin in placenta (van Papendorp et al.) 507
follicular culture of thyroid cells (Kraiem et al.) 499
hCG and PGFα, interactions in granulosa cells (Michael et al.) 319
IGFs and IGFBPs in non-islet-cell tumour-associated hypoglycaemia (Cotterill et al.) 303
IGFs and IGFBPs in pregnancy (Gargosky et al.) 491
metabolism of plasma steroids (Tait & Tait) 339
prostaglandin-producing cells in decidua (Norwitz et al.) 327
regulatory functions for inhibin and activin in ovari (Hiller) 171
N-Methyl-D-aspartate, receptors for, and, female sexual maturation, rat (Meij-Roelofs et al.) 435
Microcapsules, histrelin-containing, effects of, rat (Gunn et al.) 211
Milk, biological role of hormones in (Peaker & Neville) I
IGFBPs in, cattle (Skaar et al.) 127
transfer of IGF into, goat (Prosser et al.) 459
Mineral balance, cholecalciferol and, mole rat (Buffenstein et al.) 197
Mitochondria, effect of thyroid status and cold on, rat liver (Iossa et al.) 67
MK-801, delay of first ovulation by, rat (Meij-Roelofs et al.) 435
Model, for splanchnic extraction of steroids, man (Tait & Tait) 339
Mole rat, Cholecalciferol and mineral balance (Buffenstein et al.) 197
Monoamine oxidase, role and regulation of, rat thyroid gland (Cabanillas et al.) 25
Motility, uterine, steroid control of, GABA, receptors and, rabbit (Majewska & Vaupel) 427
Mouse, GH and growth (Bootland et al.) 19
obese diabetic, parathyroiditis in (Krug et al.) 193
secretory patterns of GH (MacLeod et al.) 395
Tfm, testicular steroidogenesis in (Murphy & O'Shaughnessy) 443
Myometrium, regulation of ANF receptors in, rat (Potvin & Varma) 259
Naloxone, effect of, on corticosterone and cortisol release, newt (Zerani & Gobbetti) 295
Newt, effects of β-endorphin/naloxone on corticosterone/cortisol release (Zerani & Gobbetti) 295
Nicotinamide, uptake of, streptozocin and, rat β cells (Sofue et al.) 135
Oestadiol, and secretion of FSH, farm animals (Price) 177
induction of vitellogen envelope proteins by, fish (Hyllner et al.) 329
serum, microencapsulated histrelin and, rat (Gunn et al.) 211
Oestrogen, and myometrial ANF receptors, rat (Potvin & Varma) 259
synthesis of, effects of inhibin and activin on, man (Hillier) 171
Oestrus cycle, oxytocin-binding sites during, guinea-pig ovary (Zhang et al.) 421
release of β-endorphin and ANF during, rat (Shewad et al.) 113
Oligomycin, and nicotinamide uptake, rat β cells (Sofue et al.) 135
Oocyte, induction of vitellogen envelope proteins during development of fish, (Hyllner et al.) 229
Opioids, and corticosteroidogenesis, newt (Zerani & Gobbetti) 295
Oreochromis niloticus, recombinant prolactins of (Swennen et al.) 219
Ovary, direct effects of inhibin and anti-inhibin on, ewe (McNeilly et al.) 401

LH/hCG receptors in, microencapsulated histrelin and, rat (Gunnet et al.) 211
oxytocin-binding sites in, guinea-pig (Zhang et al.) 421
regulatory roles for inhibin and activin in, man (Hillier) 171
Ovulation, first, MK-801 and, rat (Meijst-Roelofs et al.) 435
Oxygen consumption, effect of thyroid state and cold on, rat mitochondria (Iossa et al.) 67
Oxytocin,-binding sites for, guinea-pig ovary (Zhang et al.) 421
dendritic receptors for, conceptus proteins and, sheep (Vallat & Lamming) 475

Pancreas, modulation of EGF in, suckling rat (Schaudies et al.) 95
nicotinamide uptake by β cells, streptozotocin and, rat (Sofue et al.) 135
Parathyroid gland, calmodulin-kinase II in, man (Kato et al.) 155
lymphocytic infiltration of, non-obese diabetic mouse (Krug et al.) 193
Parathyroid hormone (PTH), effect of, on blood flow and strontium clearance, rat bone (Cochrane & McCarthy) 359
Parathyroiditis, in the non-obese diabetic mouse (Krug et al.) 193
Parturition, IGFBPs in mammary secretions during, cattle (Skaar et al.) 127
Peptidyl glycine α-amidating enzyme, release of, cell density and, cultured rat anterior pituitary cells (Sugimoto et al.) 237
Pig, control of FSH secretion (Price) 177
Pituitary cells, cultured anterior, effect of cell density on, rat (Sugimoto et al.) 237
GH release from, age and, rat (Parenti et al.) 251
Pituitary gland, and regulation of corticosteroidogenesis, newt (Zerani & Gobbetti) 295
LH secretion from, cortisol and, sheep (Nangalama & Moberg) 87
neuropeptides in, prolactin and, rat (O'Halloran et al.) 411
POMC mRNA in, fetal sheep (Yang et al.) 483
responsiveness to GnRH of, diabetes and, rat (Dong et al.) 49
Placenta, endothelin in, man (van Papendorp et al.) 507
Platelet-derived growth factor (PDGF), and proliferation of adipocytes, fowl (Butterworth & Goddard) 203
effects of, on endometrial stromal cells, man (Endo et al.) 313
Preadipocytes, regulation of proliferation of, fowl (Butterworth & Goddard) 203
Pregnancy, and myometrial ANF receptors, rat (Potvin & Varma) 259
and tissue insulin sensitivity, diabetic rat offspring (Holemans et al.) 387
conceptus proteins and endometrial oxytocin receptors, sheep (Vallat & Lamming) 475
early, interferon-α and -β (Chard) 337
IGFBPs in mammary secretions during, cattle (Skaar et al.) 127
IGFs and IGFBPs in, man (Gargosky et al.) 491
POMC mRNA in fetal pituitary during, sheep (Yang et al.) 483
term, proglaglandin-producing cells at, human decidua (Norwitz et al.) 327
Pregnenolone sulphate, and uterine motility, GABA, receptors and, rabbit (Majewska & Vaupel) 427
Progesterone, and myometrial ANF receptors, rat (Potvin & Varma) 259
and secretion of FSH, farm animals (Price) 177
and uterine motility, GABA, receptors and, rabbit (Majewska & Vaupel) 427
production of, Tjiu mouse (Murphy & O'Shaughnessy) 443
Prolactin, and pituitary neuropeptides, rat (O'Halloran et al.) 411
recombinant types I and II, production of, tilapia (Swennen et al.) 209
Pro-opiomelanocortin (POMC), mRNA for, fetal sheep pituitary (Yang et al.) 483
Prostaglandin En (PGEn), effect of, on blood flow and strontium clearance, rat bone (Cochrane & McCarthy) 359
Prostaglandin Fnm (PGFn), conceptus proteins and, sheep (Vallat & Lamming) 475
effects of, on endometrial stromal cells, man (Endo et al.) 313
interactions with HCG, human granulosa cells (Michael et al.) 319
Prostaglandins, cells producing, in human decidua (Norwitz et al.) 327
Prostate gland, regulation of growth of (Davies & Eaton) 5
Puberty, hypothalamic GHRH and somatostatin during, rat (Gil-Ad et al.) 381
onset of, MK-801 and, female rat (Meijst-Roelofs et al.) 435
Rabbit, steroid control of uterine motility (Majewska & Vaupel) 427
Rat, age and GH release (Parenti et al.) 251
clonidine and hypothalamic GHRH and somatostatin (Gil-Ad et al.) 381
delay of first ovulation by MK-801 (Meijst-Roelofs et al.) 435
diabetes and loop calcium transport (Garland et al.) 373
diabetic, vanadate and insulin counter-regulatory hormones in (Brichard et al.) 185
effect of cell density on cultured anterior pituitary cells (Sugimoto et al.) 237
effect of thyroid state and cold on hepatic mitochondria (Iossa et al.) 67
effects of microencapsulated histrelin (Gunnet et al.) 211
effects of PTH and PGE2, on bone blood flow and strontium clearance (Cochrane & McCarthy) 359
GH and IGF-I mRNA in adipose tissue (Vikman et al.) 159
GH-deficient, testicular IGF-I in (Spiteri-Grech et al.) 279
glucoctooids and GH secretion (Meill et al.) 75
hypophysial portal ANF and β-endorphin (Shewad et al.) 113
hypothyroid, IGF-I and IGF-II mRNA expression during development (Gallo et al.) 367
IGFBPs in, diabetes and (Corizzo & Cagladirosso) 33
insulin sensitivity in offspring of diabetic, effect of pregnancy (Holemans et al.) 387
GH secretion in diabetes (Dong et al.) 49
modulation of EGF levels during suckling (Schaudies et al.) 95
myometrial ANF receptors (Potvin & Varma) 259
nicotinamide uptake and streptozotocin (Sofue et al.) 135
pituitary peptides and prolactin (O'Halloran et al.) 411
renin-angiotensin in cultured epididymal epithelium (Wong & Uchendu) 287
role and regulation of monoamine oxidase in thyroid (Cabanillas et al.) 25
steroidogenic enzyme activity after EDS in testis (O'Shaughnessy & Murphy) 451
transferin inhibition of aromatase in granulosa cells (Li et al.) 245
Receptors, GABA, and steroid control of uterine motility, rabbit (Majewska & Vaupel) 427
hepatic GH, and growth regulation, G. mirabilis (Gray & Kelley) 57
LH/hCG, microencapsulated histrelin and, rat ovary (Gunnet et al.) 211
myometrial ANF, rat (Potvin & Varma) 259

Journal of Endocrinology (1991) 131, 515–522
Indexes

N-methyl-d-aspartate, and female sexual maturation, rat (Meijs-Roelofs et al.) 435

oxytocin, conceptus proteins and, sheep endometrium (Vallet & Lamming) 475

5α-Reductase, activity of, after EDS, rat testis (O'Shaughnessy & Murphy) 451

Renin, in cultured epididymal epithelium, rat (Wong & Uchendu) 287

mRNA, expression of IGF-I and IGF-II, during development, hypothalyl rat (Gallo et al.) 367

IGF-I, GH and, rat adipose tissue (Vikman et al.) 139

pituitary neurotrophinel protein, prolactin and, rat (O'Halloran et al.) 411

POMC, fetal sheep pituitary (Yang et al.) 483

RU 486, and myometrial ANF receptors, rat (Potvin & Varma) 259

Sexual dimorphism, in secretory pattern of GH, mouse (MacLeod et al.) 395

Sheep, conceptus proteins and oxytocin receptors (Vallet & Lamming) 475

control of FSH secretion (Price) 177

cortisol and LH secretion (Nangalama & Moberg) 87

direct ovarian effects of inhibit and anti-inhibit (McNeill et al.) 401

GH immunization and lean tissue growth (Pell & Aston) R1

Leydig cells in heat-affected testes (Setchell et al.) 101

POMC mRNA in pituitary (Yang et al.) 483

Somatostatin, age-related change in response to, rat (Parenti et al.) 251

antibodies to, and GH secretion, rat (Miell et al.) 75

hypothalamic, clonidine and, rat (Gil-Ad et al.) 381

Somatotrophs, cultured, effect of cell density on, rat (Sugimoto et al.) 237

Spermatogenesis, heat disruption of, and Leydig cells, ram (Setchell et al.) 101

Splanchnic, extraction of steroids, man (Tait & Tait) 339

Streptozotocin, and nicotineamide uptake, rat β cells (Sofue et al.) 135

induced diabetes, and LH secretion, rat (Dong et al.) 49

Strontium, clearance of, effect of PTH and PGE on, rat bone (Cochrane & McCarthy) 359

Submandibular gland, modulation of EGF in, suckling rat (Schauvides et al.) 95

Substance P, pituitary, prolactin and, rat (O'Halloran et al.) 411

Temperature, and hepatic mitochondria, thyroid status and, rat (Lossa et al.) 67

and Leydig cell function, ram (Setchell et al.) 101

Testis, function of Leydig cells, heat and, ram (Setchell et al.) 101

regulation of testicular IGF-I in, GH-deficient rat (Spiteri-Grech et al.) 279

steroidogenesis in, Tfm mouse (Murphy & O'Shaughnessy) 443

steroidogenic enzyme activity in, after EDS, rat (O'Shaughnessy & Murphy) 451

Testosterone, and secretion of FSH, farm animals (Price) 177

hCG and, male athletes (Cowan et al.) 147

plasma, metabolism of, man (Tait & Tait) 339

production of, Tfm mouse (Murphy & O'Shaughnessy) 443

secretion of, heat and, rat (Setchell et al.) 101

secretion of, young red deer stags (Suttie et al.) 467

Tetrahydroprogesterone, and uterine motility, GABA, receptors and, rabbit (Majewska & Vaupel) 427

Theca cells, regulatory actions of inhibit and activin on, man (Hillier) 171

Thyroid cells, follicular culture of, man (Kraiem et al.) 499

Thyroid gland, role and regulation of monoamine oxidase in, rat (Cabanillas et al.) 25

Thyroid hormone, biosynthesis of, monoamine oxidase and, rat (Cabanillas et al.) 25

Thyrotrophin (TSH), and thyroid monoamine oxidase, rat (Cabanillas et al.) 25

Thyrotrophin-releasing hormone (TRH), -induced GH release, T3 and, fowl (Denver & Harvey) 39

Thyroxine (T4), and thyroid monoamine oxidase, rat (Cabanillas et al.) 25

Tilapia, recombinant prolactin of, (Swennen et al.) 219

Transferase, and activity of aromatase in granulosa cells, rat (Li et al.) 245

Transforming growth factor-β (TGF-β), and proliferation of adipocytes, fowl (Butterworth & Goddard) 203

and prostate growth (Davies & Eaton) 5

Triiodothyronine (T3), and effect of cold on hepatic mitochondria, rat (Lossa et al.) 67

and EGF, suckling rat (Schauvides et al.) 95

and GH, fowl (Denver & Harvey) 39

secretion of, by thyroid cells in follicular culture, man (Kraiem et al.) 499

Trot, rainbow and brown, induction of vitelline envelope proteins (Hyllner et al.) 229

Tumour, non-islet-cell, hypoglycaemia associated with, IGFs and IGF-BPs in, man (Cotterill et al.) 303

Turbot, induction of vitelline envelope proteins (Hyllner et al.) 229

Ultradian pattern, of GH secretion, mouse (MacLeod et al.) 395

Uterus, regulation of myometrial ANF receptors, rat (Potvin & Varma) 259

steroid control of motility of, GABA, receptors and, rabbit (Majewska & Vaupel) 427

Vanadate, and insulin counter-regulatory hormones, diabetic rat (Brichard et al.) 185

Vasoactive intestinal peptide (VIP), and adenylate cyclase activity, effect of age on, rat pituitary (Parenti et al.) 251

pituitary, prolactin and, rat (O'Halloran et al.) 411

Vitelline envelope proteins, induction of, fish (Hyllner et al.) 229

Journal of Endocrinology (1991) 131, 515–522
