The Society for Endocrinology is one of the world’s leading authorities on hormones. Established in 1946, the Society’s aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including Journal of Endocrinology, Journal of Molecular Endocrinology, Endocrine-Related Cancer, Endocrine Connections (open access) and Clinical Endocrinology.

CONTENTS

VOLUME 220 NUMBER 1

REVIEW

Ghrelin gene products, receptors, and GOAT enzyme: biological and pathophysiological insight

RESEARCH

Absence of glucocorticoids augments stress-induced Mkp1 mRNA expression within the hypothalamic–pituitary–adrenal axis
Chad D Osterlund, Vanessa Thompson, Laura Hinds & Robert L Spencer

Cellular insulin resistance disrupts hypothalamic mHypoAPOMC/ GFP neuronal signaling pathways
Anaies Nazarians-Armavi, Jennifer A Chalmers, Claire B Lee, Wenqing Yu & Dennis D Belsham

TNFRSF14 deficiency protects against ovarectomy-induced adipose tissue inflammation
Eun-Kyung Choi, Woon-Ki Kim, Ok-Joo Sul, Yun-Kyung Park, Eun-Sook Kim, Jae-Hee Suh, Rina Yu & Hye-Seon Choi

UII and UT in grouper: cloning and effects on the transcription of hormones related to growth control
Caiyun Sun, Da Duan, Bo Li, Chabin Qin, Jinong Jia, Bin Wang, Huiyan Dong & Wensheng Li

P13 kinase directly phosphorylates Akt1/2 at Ser473/474 in the insulin signal transduction pathway
A Tsuchiya, T Kanno & T Nishizaki

Role for leptin in promoting glucose mobilization during acute hyperosmotic stress in teleost fishes
David A Baltzegar, Benjamin J Reading, Jonathon D Douros & Russell J Borski

Contents continued on the inside back cover
