The Society for Endocrinology is one of the world’s leading authorities on hormones. Established in 1946, the Society’s aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including Journal of Endocrinology, Journal of Molecular Endocrinology, Endocrine-Related Cancer, Endocrine Connections (open access) and Clinical Endocrinology.

For more information visit www.endocrinology.org

In seasonal mammals photoperiod drives the endocrine system, resulting in changes in moult and reproductive cycles. New evidence highlights a role for specialized timer cells within the pituitary gland, which respond to the hormone melatonin. This figure is reproduced on page R40 of this issue. Figure adapted from Lincoln et al. (2003) Journal of Endocrinology 179 1–13.

Contents continued from outside back cover

Thyroid status modulates T lymphoma growth via cell cycle regulatory proteins and angiogenesis 243–255

Relative adrenal insufficiency in mice deficient in Sdr-reductase 1 257–266
Dawn E W Livingstone, Emma M Di Rollo, Chéri Yang, Lucy E Codington, John A Mathews, Madina Kara, Katherine A Hughes, Christopher J Kenyon, Brian R Walker & Ruth Andrew

Increased serum CXCL1 and CXCL5 are linked to obesity, hyperglycemia, and impaired islet function 267–276
Craig S Nunemaker, H Grace Chung, Gretchen M Verrilli, Kathryn L Corbin, Aditi Upadhye & Poonam R Sharma

Gender- and region-specific alterations in bone metabolism in Scarb1-null female mice 277–288
Corine Martineau, Louise Martin-Palmault, Louise Brissette & Robert Moreau

Preconditioning actions of aldosterone through p38 signaling modulation in isolated rat hearts 289–299
Takuya Yoshino, Tomohisa Nagoshi, Ryuko Arzawa, Yasuko Kazuhira, Keiichi Ito, Daiichi Katoh, Masami Fujisaki, Yousuke Kayama, Taro Dale, Kenichi Honda & Michihito Yoshimura

Readers are invited to submit their endocrinology images for entry into the Journal of Endocrinology cover art competition. Winners will be selected by the Editor-in-Chief and will have their imagery featured on the cover of an issue of Journal of Endocrinology, both in print and online. Winners will be cited in the journal and will receive a professionally printed copy of the journal cover featuring their scientific image.

To enter the competition please email your images to joe@endocrinology.org accompanied with a short caption of 25-30 words explaining what the image depicts, its magnification and who should be acknowledged for its production. Images should be of high quality and resolution of at least 300 dpi at the final published size 220 mm (W) × 100 mm (H).

By submitting an image you warrant that you own the copyright and agree that images may be used in promotional material. Images not selected for use may still be used by the Society for Endocrinology and Bioscientifica for promotional purposes.
