REVIEWS
FGF21 as a mediator of adaptive responses to stress and metabolic benefits of anti-diabetic drugs
Kook Hwan Kim & Myung-Shik Lee R1–R16
Macronutrients and caloric intake in health and longevity

RESEARCH
Nesfatin-1 inhibits proliferation and enhances apoptosis of human adrenocortical H295R cells
Manjunath Ramanjaneya, Bee K Tan, Marcin Rucinski, Mohamed Kawan, Jianmin Hu, Jaspreet Kaur, Vanlata H Patel, Ludwik K Malendowicz, Hanna Komarowska, Hendrik Lehner & Harpal S Randeva 1–11
GH action influences adipogenesis of mouse adipose tissue-derived mesenchymal stem cells
Low glucose-induced ghrelin secretion is mediated by an ATP-sensitive potassium channel
Manami Oya, Tetsuya Kitaguchi, Kazuki Harada, Rika Numano, Takahiro Sato, Masayasu Kojima & Takashi Tsuboi 25–34
Long-term oral exposure to bisphenol A induces glucose intolerance and insulin resistance
Min Kyong Moon, In-Kyong Jeong, Tai-Jung Oh, Hwa Young Ahn, Hwan Hee Kim, Young Jae Park, Hak Chul Jang & Kyong Soo Park 35–42
Increasing serotonin concentrations alter calcium and energy metabolism in dairy cows
Jimena Laporta, Spencer A E Moore, Samantha R Weaver, Calyssia M Cronick, Megan Olsen, Austin P Prichard, Brian P Schnell, Thomas D Crenshaw, Francisco Peñagaricano, Rupert M Bruckmaier & Laura L Hernandez 43–55
Lactosio inhibits the glucose-sensing receptor TRX3 expressed in mouse pancreatic β-cells
Koishisa Hamano, Yuko Nakagawa, Yoshikl Ohtsu, Longfei Li, Johan Medina, Yoji Tanaka, Katsuyoshi Masuda, Mitsushia Komatsu & Ibaro Kojima 57–66
Milk-soluble formula increases food intake and reduces Il6 expression in elderly rat hypothalami
Hassina Ould Hamouda, Bernadette Delplanque, Yacine Benomar, Delphine Crépin, Laure Riffault, Pascale LeRuyet, Cécile Bonhomme & Mohammed Taouis 67–80
Diet-induced obesity causes peripheral and central ghrelin resistance by promoting inflammation
Farhana Naznin, Koji Toshimai, T M Zaved Waise, Cherl NamKoong, Abu Saleh Md Moin, Hideyuki Sakoda & Masamitsu Nakazato 81–92
The Society for Endocrinology is one of the world's leading authorities on hormones. Established in 1946, the Society's aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including Journal of Endocrinology, Journal of Molecular Endocrinology, Endocrine-Related Cancer, Endocrine Connections (open access) and Clinical Endocrinology.

For more information visit www.endocrinology.org

COVER ART COMPETITION

Readers are invited to submit their endocrinology images for entry into the Journal of Endocrinology cover art competition. Winners will be selected by the Editor-in-Chief and will have their imagery featured on the cover of an issue of Journal of Endocrinology, both in print and online. Winners will be cited in the journal and will receive a professionally printed copy of the journal cover featuring their scientific image.

To enter the competition please email your images to joe@endocrinology.org accompanied with a short caption of 25-30 words explaining what the image depicts, its magnification and who should be acknowledged for its production. Images should be of high quality and resolution of at least 300 dpi at the final published size 220 mm (W) × 100 mm (H).

By submitting an image you warrant that you own the copyright and agree that images may be used in promotional material. Images not selected for use may still be used by the Society for Endocrinology and Bioscientifica for promotional purposes.

THIS ISSUE'S COVER

The image depicts an immunostain of a pancreas section from control animals. Nuclei are stained with DAPI; glucagon, green; insulin, red. Magnification ×20.
