It is hoped to publish the following articles in a forthcoming issue of the Journal:

Moses, A. M., Leveque, T. F., Giambattista, Mary & Lloyd, C. W. Dissociation between the content of vasopressin and neurosecretory material in the rat neurohypophysis.

Zarrow, M. X. & Quinn, D. L. Superovulation in the immature rat following treatment with PMS alone and inhibition of PMS-induced ovulation.

Greaves, M. S. & West, H. F. Cortisol and cortisone in pregnancy saliva.

Swanson, H. E. & van der Werff ten Bosch, J. J. Sex differences in growth of rats, and their modification by a single injection of testosterone propionate shortly after birth.

Girerd, R. J. & DiPasquale, G. Thymus and inflammation.

Falconer, I. R. The externalization of the thyroid gland and measurement of its function.

Peeters, G. & Debackere, M. Influence of massage of the seminal vesicles and ampullae and of coitus on water diuresis of the ram.

Wallace, A. C. L. & Ferguson, K. A. The preparation of sheep growth hormone.

Chester Jones, I. & Henderson, I. W. The ovary of the 13-lined ground squirrel (Citellus tridecemlineatus, Mitchell), after adrenalectomy.

Marshall, W. A. The effect of autotransplantation of the thyroid gland on the onset of oestrus in ferrets.

Short Communications

Bentley, P. J. A method for the detection and estimation of small amounts of arginine-vasotocin.

Brown-Grant, K. Inhibition of ovulation and thyroid gland activation in the rat by Nembutal.
