INDEX

The titles given under subject headings are abbreviated or modified. The full title of any paper is given under the heading of the first author's name.

Absorption, of esters of oestrone and oestriadiol (Parkes) 288
Adrenal cortex, case of carcinoma with hypophyseal abnormality (McLetchie & Scott) 347
role in induced shock (Reiss, MacLeod & Golla) 292
Adrenal medulla, influence on water balance (Stein & Wertheimer) 356
Adrenal X-zone, effects of hormones on (Waring) 123
Amoroso, E. C., see Folley, S. J.
Androgens, effects on behaviour of monkey uterus (Bell) 87
effects on spermatogenesis in minnows (W. S. Bullough) 211
implantation of tablets in man (Foss) 107
Antidiabetic serum (Ennor & Singer) 118

Bacsich, P. & WYBURN, G. M. Observations on the oestrogenic potency of stilboestrol in the guinea-pig 401
Basophil cells of the pituitary, their staining in normal cases and Cushing's Syndrome (McLetchie) 323
Bell, G. H. The behaviour of the uterus of the monkey under the influence of certain hormones 87
Bell, G. H. & CUTHBERTSON, D. P. The effect of various hormones on the chemical and physical properties of bone 302
Bone, effects of hormones on its chemical and physical properties (Bell & Cuthbertson) 302
nature of hyperostification produced by excess oestrogen doses (Lippman & Saunders) 370

Bullough, H. F. Cyclical changes in the skin of the mouse during the oestrous cycle 280
Bullough, W. S. Gametogenesis and some endocrine factors affecting it in the adult minnow (Phoxinus laevis L.) 211
Oogenesis and its relation to the oestrous cycle in the adult mouse 141
The effects of oestrone on the ovary of the mouse 235
The method of growth of the follicile and corpus luteum in the mouse ovary 150

Castration, effect on hair growth (Emmens) 64
Chang, Min-Chueh. Effects of oestrogen (stilboestrol) on the sperm production of adult rats 192
Chapman, A., HigginS, G. M. & Mann, F. C. Additional studies of the extrathyroidal metabolism of iodine 392
Chorionic gonadotrophin, see gonadotrophin, chorionic
Corpus luteum, its growth in mouse ovary (W. S. Bullough) 150

Corticotrophin, effects in induced shock (Reiss, MacLeod & Golla) 292
in pregnant mares' serum (Golla & Reiss) 5
Chushing's syndrome (McLetchie) 323, 332
Cuthbertson, D. P., see Bell, G. H.
Cytology, parathyroid, in relation to secretory activity (Foster) 244
Cytology, pituitary, in dwarf with normal sex function (Hewer) 397
in normal cases and in Cushing's syndrome (McLetchie) 323, 332
in oestrogen-treated rats (Foster) 79

Deoxycorticosterone, effects in induced shock (Reiss, MacLeod & Golla) 292
Diabetogenic pituitary extract, serological protection against (Ennor & Singer) 118
Dwarfism, in case with hypophyseal abnormality and normal sex function (Hewer) 397

Emery, F. E. Comparative action of stilboestrol and oestrogen on body growth and on the weight and gonadotropin content of the hypophysis 254
Emmens, C. W. Oestrogens and pro-oestrogens related to stilbene and triphenylethylene 168
The differentiation of oestrogens from pro-oestrogens by the use of spayed mice possessing two separate vaginal sacs 174
The endocrine system and hair growth in the rat 64
The urinary excretion of oestrogens following the injection of pro-oestrogens in the guinea-pig 316

Ennor, A. H. & Singer, E. Serological protection against the diabetogenic substance of the anterior pituitary gland 118

Feather tests, to determine absorption rates of oestrogen esters (Parkes) 288
Fecundity, superfecundation produced in rabbits (Parkes) 268
Folley, S. J., Scott Watson, H. M. & Amoroso, E. C.
Further experiments on lactation in thyroidectomized rats: the role of the parathyroids 178
Follies, ovarian, growth in mouse (W. S. Bullough) 150
Foss, G. L. Implantation of sex hormones in man 107
Foster, C. L. Studies on the parathyroid of the mouse. I. The cytology of the normal gland in relation to its secretory activity 244
The effect of implanting tablets of synthetic oestrogens on the histology and cytology of the anterior pituitary of immature rats 79

Golla, Y. M. L. & Reiss, M. Corticotrophic activity in pregnant mares' serum 5
See also Reiss, M.
Gonadotrophin, chorionic, effects on degeneration of adrenal X-zone (Waring) 123
effects on oestrous cycle of hamster (Peczenik) 157
use in producing ovulation in hypophysectomized rats (Rowlands & Williams) 310
use in producing ovulation in immature rats (Rowlands) 384

Gonadotrophin, pituitary, amount in hypophysis of oestrogen-treated rats (Emery) 254
effects on oestrous cycle of hamster (Peczenik) 157
use in producing ovulation in hypophysectomized rats (Rowlands & Williams) 310
Gonadotrophin, serum, use in producing ovulation in hypophysectomized rats (Rowlands & Williams) 310
use in producing ovulation in immature rats (Rowlands) 384
Gray, C. H. The ketogenic activity of extracts of the anterior pituitary 132
Griffiths, M. & Young, F. G. The assay of hypophyseal growth-promoting extracts employing rats treated with diethylstilboestrol 96
Growth, comparative action of oestrone and stilboestrol on (Emery) 254
effects of growth-promoting pituitary extracts on stilboestrol-treated rats (Griffiths & Young) 96
maintenance and restoration after thyroidectomy (Rowlands) 203

HAIN, A. M. Further observations on the role of progestrone (pregnandiol) and oestrogen in pregnancy 10

Hair growth and endocrine system (Emmens) 64

Hamster, oestrous cycle in (Peczenik) 157

Hewer, T. F. Ateleiotic dwarfism with normal sex function: a result of hypopituitarism 397

Higgins, G. M., see Chapman, A.

Horning, E. S. The reaction of the uterine epithelium of the rat to oestrogenic stimulation 260

Iodine, extrathyroidal metabolism of (Chapman, Higgins & Mann) 392

Ketogenic activity of anterior pituitary extracts (Gray) 132

Lactation in thyroidectomized rats (Folley, Scott-Watson & Amoroso) 178

Lippman, H. N. & Saunders, J. B. de C. M. On the nature of the hyperosseification observed in the long bones of rats treated with excessive doses of oestradiol benzoate 370

MacLeod, L. D., see Reiss, M.

McLetchie, N. G. B. On staining the basophil cells of the human hypophysis with special reference to the abnormal basophil cells in Cushings’s syndrome 323

The pituitary basophilism syndrome of Harvey Cushing 332

McLetchie, N. G. B. & Scott, L. D. W. Carcinoma of an adreno-cortical rest associated with hypophysseal abnormality 347

Mann, F. C., see Chapman, A.

Monkey, effect of hormones on uterine behaviour (Bell) 87

Oestradiol, see oestrogens

Oestrogens and pro-oestrogens related to stilbene and triphenylethylen (Emmens) 168

assay of stilboestrol in guinea-pig (Bacsich & Wyburn) 401

comparative activity of oestrone and stilboestrol on body growth and hypophysia (Emery) 254
differentiation from pro-oestrogens (Emmens) 174
effects of growth-promoting pituitary extracts on stilboestrol-treated rats (Griffiths & Young) 96
effects of oestradiol benzoate on bone (Bell & Cuthbertson) 302
effects of oestradiol benzoate on long bones of rats (Lippman & Saunders) 370
effects of oestrone on degeneration of adrenal X-zone (Waring) 123
effects of oestrone on mouse ovary (W. S. Bullough) 235
effects of oestrone on response of monkey uterus (Bell) 87
effects on anterior pituitary histology and cytology (Foster) 79
effects on hair growth (Emmens) 64
effects on oestrous cycle in the hamster (Peczenik) 157
effects on sperm production in adult rams (Chang) 192
effects on uterine epithelium (Horning) 260

excretion in pregnancy (Hain) 10

implantation of tablets in man (Foss) 107

mechanism of oestrogen production in the ovary (Zondek & Sklow) 1

rate of absorption of esters of oestradiol and oestrone (Parkes) 288

stimulation of oogenesis in minnows (W. S. Bullough) 211

urinary excretion following injection of pro-oestrogens (Emmens) 316

Oestrone, see oestrogens

Oestrous cycle, cyclic changes in skin during (H. F. Bullough) 280

in the hamster and the effects of hormones on it (Peczenik) 157

its relation to oogenesis (W. S. Bullough) 141

Oogenesis, its relation to the oestrous cycle in mice (W. S. Bullough) 141

in the minnow and its stimulation by oestrogen (W. S. Bullough) 211

Ovary, effects of oestron on (W. S. Bullough) 235
growth of follicles and corpus luteum (W. S. Bullough) 150

mechanism of oestrogen production in (Zondek & Sklow) 1

Ovulation, production in hypophysectomized rats (Rowlands & Williams) 310

production in immature rats (Rowlands) 384

superovulation produced in rabbits (Parkes) 268

Oxytocin, effect on monkey uterus (Bell) 87

Parathyroids, effects of extracts on bone (Bell & Cuthbertson) 302

normal cytology in mice (Foster) 244

role in lactation (Folley, Scott-Watson & Amoroso) 178

PARKS, A. S. Administration of non-steroid substances by the implantation technique 220

Induction of superovulation and superfecundation in rabbits 268

Rate of absorption of esters of oestrone and oestriadiol as determined by feather tests 288

Peczenik, O. Actions of sex hormones on oestrous cycle and reproduction of the golden hamster 157

Pituitary extracts, anterior, effects of growth-promoting extracts on stilboestrol-treated rats (Griffiths & Young) 96

effects on bone (Bell & Cuthbertson) 302

effects on hair growth (Emmens) 64

ketogenic activity (Gray) 132

serological protection against diabetogenic extract (Ennor & Singer) 107

see also corticotrophin and gonadotrophin

Pituitary extracts, posterior, effects on degeneration of adrenal X-zone (Waring) 123

effects on monkey uterus (Bell) 87

Pituitary gland, anterior, abnormality in a case of adreno-cortical carcinoma (McLetchie & Scott) 347

abnormality in a case of dwarfism with normal sex function (Hewer) 397

basophilism (McLetchie) 332

effects of oestrogens on its histology and cytology (Foster) 79

effects of oestrogens on its weight and gonadotropin content (Emery) 254

role in induced shock (Reiss, MacLeod & Golla) 292

staining the basophil cells in normal cases and cases of Cushing’s syndrome (McLetchie) 323

Pituitary implants, effects on degeneration of adrenal X-zone (Waring) 123

Pituitary staining in Cushing’s syndrome (McLetchie) 323

Pregnancy, role of progesterone and oestrogen in (Hain) 10

Pregnanediol excretion in pregnancy (Hain) 10

Pregnant mare’s serum, corticotrophic activity in (Golla & Reiss) 5

see also gonadotrophin, serum
