No. 3 October 1964

PAGE

Heap, R. B. A fluorescence assay of progesterone. 293

Seamark, R. F. and White, I. G. The metabolism of steroid hormones in semen . 307

Sobel, H. J. Phosphatases of rat thyroid and anterior pituitary glands during various phases of secretory activity. A cytochemical study . 323

Martin, L. The uptake of locally applied [6:7-3H]oestradiol-17\beta by the vagina of the ovariectomized mouse . 337

Schofield, Brenda M. Myometrial activity in the pregnant guinea-pig . 347

Hinde, R. A. and Steel, Elizabeth. Effect of exogenous hormones on the tactile sensitivity of the canary brood patch . 355

Lindner, H. R., Sass, M. B. and Morris, B. Steroids in the ovarian lymph and blood of conscious ewes . 361

Kennedy, G. C. and Parker, R. A. Permanent isolation of the adenohypophysis from hypothalamic control in rats with diabetes insipidus 377

Wallace, A. L. C. and Ferguson, K. A. The chromatography on DEAE-cellulose of pituitary extracts from several species . 387

SHORT COMMUNICATION

Edgren, R. A. and Peterson, D. L. Blockage of ovarian compensatory hypertrophy in hemicastrated rats with a dithiocarbamoylhydrazine derivative . 399

PROCEEDINGS OF THE SOCIETY FOR ENDOCRINOLOGY

Editor: Kathleen Hall

Meeting of 8 May 1964. Ninety-fifth Meeting

James, Frances and Fotherby, K. Estimation of 6-oxygenated metabolites of progesterone in urine . i

Cooke, I., Wilson, G., Caie, Edmar and Klopper, A. A technique for the combined assay of urinary oestriol and of pregnanediol using dextran gel filtration . ii

Heap, R. B. and Deanesly, Ruth. Progesterone levels in intact and ovariectomized pregnant guinea-pigs . ii

Winkler, G. K. and Harkness, R. A. The effect of a strongly progestational steroid on adrenal function in the guinea-pig . iii

Espiner, E. A. The suppression of cortisol secretion by steroids and response to corticotrophin in sheep with adrenal transplants . iv
