Young, B. A., Foster, C. L. & Cameron, E. Ultrastructure of rabbit adenohypophysis 279
SUBJECTS

Adenohypophysis, ultrastructure of, rabbit (Young et al.) 279
Adrenal activity, effect of cold, deer mice (Eleftheriou) 75
Adrenal corticosteroids, determination of, human plasma (Spencer-Peet et al.) 235
Adrenal gland, genetic study, mouse (Meckler & Collins) 95
genetic variability of structure and function (Spickett et al.) xxvii
3β-hydroxysteroid dehydrogenase in, man, monkey, rat (Bailie et al.) 227
Adrenocortical hormone secretion, effect of eserine and atropine on, dog (Suzuki et al.) 81
Adrenocortical steroids, gas chromatography of (Gottfried) xxii
in rat and ground squirrel (Vinson) xxii
Adrenocorticotropic hormone, secretion of, by hypophysial cells grown in monolayer culture (Stark et al.) 291
Androgen sulphates, biological role of (Wang et al.) xxvi
Androgenic activity in the roe buck (Short & Mann) xix
Anura, thyroxine and sodium transport by membranes of (Taylor & Barker) 175
Artificial eggs, tubal transport of, rabbit (Harper) 217
Atropine, effect on adrenocortical hormone secretion, dogs (Suzuki et al.) 81
Calcitonin, secretion by parathyroid glands, sheep (Care & Keynes) xxxi
Capreolus capreolus, androgenic activity in (Short & Mann) xix
Carbohydrate metabolism, effect of hormones on, lamprey (Bentley & Follett) 127
Catecholamine, content of, in uterus, ovary, hypophysis, early pregnancy, rat (Barnea & Shelesnyak) 271
Citellus tridecemlineatus Mitchell, adrenocortical steroids in (Vinson) xxii
Clomiphene, effect on endocrine function, man (Hakney et al.) 53
Corpora lutea, number of, influence on endometrial proliferation and embryo development, rabbit (Adams) xxix
Corticosteroid 21-sulphates, metabolism in vitro (Pasqualini & Faggett) 85
Corticosteroids, role in controlling pituitary ACTH (Hodges & Jones) xx
Cortisol, effect on growth and food intake, rats (Bellamy) 83
influence of reserpine on production of, dog (Cushman & Hilton) 181
metabolism in extra-hepatic tissues, man (Jenkins) xxvi
non-protein bound unconjugated metabolites of, renal excretion of (Murphy & West) xxii
transcoritin-bound and unbound, in plasma (Dixon) xxvi
Cortisone, metabolic effects of, mice (Kekwick & Pawan) 265
Cow, levels of FSH and LH in pituitary gland at ovulation (Rakha & Robertson) 245
Deer mice, Peromyscus maniculatus bairdii, P.m. gracilis, adrenal activity in cold (Eleftheriou) 75
Desamino-oxytocin, action on pregnant uterus, man (Embrey) 185
Dithiocarbamoylhydrazine (ICI 33828), use in investigation of mechanism of menopausal hot flushes (Ferriman & Purdie) 173
Dog, effect of acclimatization to muscular exercise in hot environment on oxidative tissue enzymes (Bedrak & Samoloff) 179
effect of eserine, atropine on adrenocortical hormone secretion (Suzuki et al.) 81
influence of reserpine on cortisol production (Cushman & Hilton) 181
ultrastructure of neurosecretory cells in supraoptic nucleus (Slaper & Bateson) 139
Dogfish, Squalus acanthias, biosynthesis of steroids in semen; testis (Simpson et al.) 11; 29
Embryonic development, influence of number of c. lutea on, rabbit (Adams) xxix
Endometrial proliferation, influence of number of c. lutea on, rabbit (Adams) xxix
Eserine, effect on adrenocortical hormone secretion, dog (Suzuki et al.) 81
Follicle stimulating hormone, level in bovine pituitary gland at ovulation (Rakha & Robertson) 245
Frog, Rana ridibunda, influence of human serum on activity of HCG (Inslter & Lunenfeld) 151
Goat, ovariecetomized, induction of mammary growth and lactation in (Benson et al.) 157;
(Cowie et al.) 165
young, castrated, hypophysectomized, blood constituents in (Tindal & Yokoyama) 39
young, castrated, hypophysectomized, growth in (Tindal & Yokoyama) 39, 45
Ground squirrel, thirteen-lined, adrenocortical steroids in (Vinson) xxii
Growth hormone, primate, synergism with non-primate growth hormone (Forsyth) xxx
synergism with prolactin (Forsyth) xxx
Hexoestrol, induction of lactation and mammary growth, goat (Benson et al.) 157;
(Cowie et al.) 165
Human chorionic gonadotrophin, effect on ovarian ascorbic acid and cholesterol, rat (Mukerji et al.) 197
influence of human serum on activity in male frog (Inslter & Lunenfeld) 151
3-Hydroxy-19-norpregn-1,3,5(10)-trien-20-one, metabolism and distribution in tissue, rabbit (Schulster & Kellie) xxv
3β-Hydroxysteroid dehydrogenase, activity in mouse Leydig cell (Baillie & Griffiths) 207 activity in ovary of postnatal rat (Pres et al.) 293 activity in placenta (man) and adrenal gland (man, monkey, rat) (Baillie et al.) 227 in foetal mouse Leydig cell (Baillie & Griffiths) 63 Hyperaldosteronism, primary, alterations in rhythm of urine and electrolyte excretion in (Mathews) xxii Hypophysectomy, effect on growth, young castrated goat (Tindal & Yokoyama) 39, 45 Hypophysial cells, secretion of ACTH by, culture of (Stark et al.) 201 Hypophysis, catecholamine content in early pregnancy, rat (Barnea & Shelesnyak) 271 Hypothalamic neurones, effect of luteal hormone on, rat (Cross & Silver) 251 Hypothalamus and lactation, rat (Averill) 191 Insulin, in pancreas of foetal rodent (Grillo) 67 Insulin activity, plasma, effects of i.v. glucose, sheep (Cunningham) 1 Interstitial cells, Schiff-positive, phagocytic nature of, rat testis (Clegg & Macmillan) 299 Lactation, induction of, ovariectomized goat (Benson et al.) 157; (Cowie et al.) 165 restoration in rats with hypothalamic lesions (Averill) 191 Lactose, content of mammary gland of pregnant rat (Shinde et al.) 105 Lampetra fluviatilis, effects of hormones on carbohydrate metabolism (Bentley & Follett) 127 Lamprey, Lampetra fluviatilis, effects of hormones on carbohydrate metabolism of (Bentley & Follett) 127 Leydig cell, 3β-hydroxysteroid dehydrogenase in, foetal mouse (Baillie & Griffiths) 63; 3β-hydroxysteroid dehydrogenase in, infant mouse (Baillie & Griffiths) 207 Long-acting thyroid stimulator (LATS), standard for (Dorrington & Munro) 21 Luteal hormone, effect on hypothalamic neurones, rat (Cross & Silver) 251 Luteinizing hormone, effect of melatonin on, rat (Adams et al.) 295 in bovine pituitary gland at ovulation (Rakha & Robertson) 245 Mammary gland, induction of growth in ovariectomized goat (Benson et al.) 157; (Cowie et al.) 165 lactose content of, rat (Shinde et al.) 105 Man, action of desamino-oxytocin on pregnant uterus of (Embrey) 185 concentration of oestrogens in peripheral blood during normal menstrual cycle and early pregnancy (Roy et al.) 177 excretion of 6-oxygenated metabolites of progesterone and of pregnanetriol throughout pregnancy (Fotherby et al.) xxv fluorimetric determination of adrenal corticosteroids in plasma (Spencer-Peet et al.) 285 3β-hydroxysteroid dehydrogenase in adrenal gland and placenta (Baillie et al.) 227 mechanism of menopausal hot flushes (Ferriman & Purdie) 173 metabolism of cortisol in extra-hepatic tissues (Jenkins) xxvi normal, oclomiphene and endocrine function (Harkness et al.) 53 Melatonin, effect on anterior pituitary luteinizing hormone, rat (Adams et al.) 295 Menopausal hot flushes, mechanism of (Ferriman & Purdie) 173 Menstrual cycle, normal, concentration of oestrogens in peripheral blood during (Roy et al.) 177 Monkey, 3β-hydroxysteroid dehydrogenase in adrenal gland (Baillie et al.) 227 rhesus, urinary excretion of oestrogens in (Laumas) 297 Mouse, embryopathic effects of progesterone deficiency (Poulson et al.) xxviii foetal, 3β-hydroxysteroid dehydrogenase in testis (Baillie & Griffiths) 63 genetics of adrenal gland (Meckler & Collins) 95 infant, 3β-hydroxysteroid dehydrogenase in (Baillie & Griffiths) 207 metabolic effects of cortisone (Kekwick & Pawan) 265 Neurosecretory cells in supraoptic nucleus, ultrastructure of, dog, rat (Sloper & Bateson) 139 Oestradiol monobenoate, induction of lactation and mammary growth, ovariectomized goat (Cowie et al.) 165 Oestrogen, conjugates of urine in late pregnancy (Smith & Kellie) xxiv effect on transport of artificial truct, rabbit (Harper) 217 Oestrogenic hormones, early history of (Corner) iii Oestrogens in peripheral blood during normal menstrual cycle and early pregnancy, man (Roy et al.) 177 urinary excretion of, monkey (Laumas) 297 Ovary, catecholamine content in early pregnancy, rat (Barnea & Shelesnyak) 271 effect of PMSG and HCG, rat (Mukerji et al.) 197 steroid-3β-ol dehydrogenase in postnatal rat (Pres et al.) 293 Pancreas, insulin in, foetal rodent (Grillo) 67 Parathyroid, secretion of calcitonin by, sheep (Care & Keynes) xxxi Peromyscus maniculatus bairdii, adrenal activity in cold (Eleftheriou) 75 Peromyscus maniculatus gracilis, adrenal activity in cold (Eleftheriou) 75 Phytoestrogens, antagonism to progesterone and testosterone (Sharaf & Gama) 289 Pituitary gland, levels of FSH and LH at ovulation, cow (Rakha & Robertson) 245 role of corticosteroids in controlling ACTH activity of (Hodges & Jones) xx
