JOURNAL OF ENDOCRINOLOGY

It is hoped to publish the following papers in a forthcoming issue of the Journal:

Smith, M. W. & Thorn, N. A. The effects of calcium on protein-binding and metabolism of arginine vasopressin in rats.

Deanesly, R. & Perry, J. S. Corpus luteum control in hysterectomized guinea-pigs.

Simpson, H. The daily adrenal rhythm in Equatorial Amerindians.

Bentley, P. J. The potentiating action of magnesium and manganese on the oxytocic effect of some oxytocin analogues.

Finn, C. A. Oestrogen and the decidual cell reaction of implantation in mice.

Thornton, C. B., Rogers, Sylvia & Klyne, W. Simple preparations of 5β-pregnane-3z,17z,20α-triol and 5β-pregnane-3z,11β,17z,20α-tetrol.

Hall, Kathleen. Histochemical investigation of the effects of oestrogen, progesterone and relaxin on glycogen, amylophosphorylase, transglycosylase and uridine diphosphate glucose-glycogen transferase in uteri of mice.

Short Communications

Huang, C. Y. & Everett, A. V. The effect of pregnancy on pineal weight in the rat.

Staples, R. E. & Geils, Helen D. An observation on the vaginal smear of the rat.

Ball, J. N. & Ensor, D. M. Effect of prolactin on plasma sodium in the teleost, Poecilia latipinna.

Yamasita, K. Effect of flavonoid compounds on progesterone in progestational development.

Blair, H. A. F., Morse, W. I. & Brown, J. B. The determination of small amounts of oestradiol, oestrone and oestradiol-17β in human urine.
