JOURNAL OF ENDOCRINOLOGY

It is hoped to publish the following papers in a forthcoming issue of the Journal.

CAUSTON, ANN, CHORLTON, BERNICE & ROSE, G. ALAN. An improved assay for parathyroid hormone, observing rise of serum calcium in thyroparathyroidectomized rats.

GREENWALD, G. S. The effects of a single injection of diethylstilboestrol or progesterone on the hamster ovary.

GREENWALD, G. S. Anti-ovulatory potency of various steroids, determined by a single injection of the female hamster.

SHAW, D. A. Some theoretical considerations of the metabolism of [4-14C]cortisol in man.

FULLERTON, ALICE & MORRISON, J. F. B. A comparison of certain responses of the vascular system of rats following the administration of progesterone and oestrogen.

HEALD, P. J., McLACHLAN, P. M. & ROOKLEDGE, K. A. The effects of insulin, glucagon and adrenocorticotrophic hormone on the plasma glucose and free fatty acids of the domestic fowl.

McCAA, CONNIE S., RICHARDSON, T. Q., McCAA, R. E., SULYA, L. L. & GUYTON, A. C. Aldosterone secretion by dogs during the developmental phase of Goldblatt hypertension.

ASHTON, W. L. Glucose uptake induced in rat hemidiaphragms by insulin in the presence of human albumin.

BANERJEE, R. N. Insulin labelled with radioactive iodine: preparation, purification and hormonal properties.

KING, R. J. B., PANATTONI, MARTA, GORDON, J. & BAKER, ROSEMARY. The metabolism of steroids by tissue from normal and neoplastic rat breast.

FOtherby, K., JAMES, FRANCES, KAMYAB, SORAYA, KLOPPER, A. I. & WILSON, G. R. Excretion of 6-oxygenated metabolites of progesterone and 5β-pregnane-3α,17α,20α-triol during pregnancy.

Short communications

WELLS, M. Extraction of urinary gonadotrophin for assay by induced ovulation.

SHELDON, JOANNA & TAYLOR, K. W. The immunoassay of insulin in human serum treated with sodium ethylene diamine tetra-acetate.
