JOURNAL OF ENDOCRINOLOGY

It is hoped to publish the following papers in a forthcoming issue of the Journal:

MURDOCH, R. N. & WHITE, I. G. The activity of enzymes in the rabbit uterus and effect of progesterone and oestradiol.

LAPointe, J. L. Effect of ovarian steroids and neurohypophysial hormones on the oviduct of the viviparous lizard, *Klauberina riversiana*.

HINDSON, J. C., SCHOFIELD, BREND A. M. & WARD, W. R. The effect of progesterone on recorded parturition and on oxytocin sensitivity in the sheep.

STANDEVEN, R. M. Thyroid function tests during pregnancy, the normal menstrual cycle and in women using oral contraceptives.

BINDON, B. M. The role of the pituitary gland in implantation in the mouse: delay of implantation by hypophysectomy and neurodepressive drugs.

VARAVUDHI, PUPPIFONGSE. Induction by androgens of nidation in pregnant rats deprived of gonadotrophin secretion by trifluoperazine injections and by lactation.

MACARTNEY, J. C. & THOMAS, G. H. NADP-linked 17β- and 20α-steroid reductase activity in the rabbit uterus.

LADOSKY, W., NORONHA, J. G. L. & GAZZIRI, I. F. Luteinization of ovarian grafts in rats related to treatment with testosterone in the neonatal period.

BLAND, K. P. & DONOVAN, B. T. Observations on the time of action and the pathway of the uterine luteolytic effect of the guinea-pig.

COUPLAND, R. E., BISWAS, S. & MACDOUGALL, J. D. B. The effect of progesterone, glucose-6-phosphate dehydrogenase, adrenocorticotropic hormone and metyrapone on adrenocortical secretion of rat adrenal glands cultured under hyperbaric oxygen.

RAMALAH, T. R. & GANGADHARA, N. S. Effect of methallibure (ICI 33,828) on the nitrogen retention and growth induced by ovine growth hormone.

LANGSLOW, D. R. & HALES, C. N. Lipolysis in chicken adipose tissue *in vitro*.

MOOR, R. M., ROWSON, L. E. A., HAY, MARY F. & CALDWELL, B. V. The corpus luteum of the sheep: effect of the conceptus on luteal function at several stages during pregnancy.

*Short communications*

LAMOND, D. R. Alteration of ovarian function of immature mice treated with androgen after birth.

HARRISON, R. J. & YOUNG, B. A. Follicular cells in the delphinid adenohypophysis.
ANNOUNCEMENTS

IVth International Congress of Endocrinology

This will be held in Washington, D.C. from 18 to 23 June 1972. The Chairman of the Local Organizing Committee is Dr J. E. Rall, Director of Intramural Research, National Institutes of Health, and the Secretary-Treasurer is Dr G. D. Aurbach, Chief, Section on Mineral Metabolism, National Institutes of Health, The address of the National Institutes of Health is Bethesda, Maryland 20014, U.S.A. Further details will be issued after the appointment of the Programme Organizing Committee of this Congress.

Calcitonin 1969

A Symposium on Calcitonin and the 'C' Cells will be held at the Royal Postgraduate Medical School in London from 21 to 24 July 1969. The programme will include clinical, chemical, physiological and histological aspects of this field. Recent research, both mammalian and non-mammalian, will be discussed. Further information and registration forms will be available in January on application to the Symposium Secretary, Dr Giraud Foster, Royal Postgraduate Medical School, Ducane Road, London, W. 12, England.

Integration of endocrine and non-endocrine mechanisms in the hypothalamus

A Workshop Conference will be held in Stresa (Novara), Italy from 19 to 30 May 1969 at the Grand Hôtel et des Iles Borromées. The Conference is jointly sponsored by the Department of Pharmacology of the University of Milan, the Province of Novara and the Scientific Affairs Division of NATO. Each of the 32 major topics will be introduced by a Review Lecture by an invited speaker. Attendance will be limited to 100 scientists. Applications (stating date and place of birth, present nationality, degree and other academic qualifications, list of publications, present position and place of work) should be sent to the Conference Office before 15 February. A limited number of scholarships will be available and details of these and of the programme can be obtained from the Conference Office.

Conference Office:
Dr L. Martini
Department of Pharmacology
University of Milan
32 Via Vanvitelli
20129 Milan, Italy
The 15th Symposium of the German Society for Endocrinology

This will be held in Cologne from 6 to 8 March 1969. The main subjects will be 'Oestrogens' and 'Tumours of the hypophysis.' Details can be obtained from the Secretary:

Prof. Dr J. Kracht
Pathologisches Institut der Universität
63 Giessen
Klinikstrasse 32 g
Germany
