FAHMY, D., GRIFFITHS, K. and TURNBULL, A. C. Metabolism of 19-hydroxy-C_{19}-steroids by human corpus luteum .................................................. 133
RADFORD, H. M., WHEATLEY, I. S. and WALLACE, A. L. C. The effects of oestradiol benzoate and progesterone on secretion of luteinizing hormone in the ovariectomized ewe .................................................. 135
FEW, J. D. and COLLINS, K. J. Circadian variation in the steroid 11-oxygenation index ................................................................. 137

REVIEW
BAIRD, J. D. Some aspects of carbohydrate metabolism in pregnancy with special reference to the energy metabolism and hormonal status of the infant of the diabetic woman and the diabetogenic effect of pregnancy ......................................... 139

PROCEEDINGS OF THE SOCIETY FOR ENDOCRINOLOGY
ONE HUNDRED AND ELEVENTH MEETING

EDITOR: P. S. BROWN

BELLAMY, D., GOULDING, J. and GRIFFITHS, W. J. Diurnal rhythms in sodium and potassium excretion in a highly inbred rat: an evaluation of the role of aldosterone ............................................................. i
CROCKER, ANN D. The effect of aldosterone and angiotensin on the intestinal transport of sodium and water in the rat .................................................. ii
HENDERSON, I. W. and EDWARDS, B. R. Effect of angiotensin-II-amide on renal function in the clawed toad, *Xenopus laevis* Daudin ............................................. iii
MILLS, I. H., WILSON, R. J. and DE BONO, E. Intra-renal regulation of sodium excretion ................................................................. v
SINGER, BERTHA, KINSON, G.A., JOHNS, E. J. and COOTE, J. H. Studies on the influence of renal nerves on the regulation of aldosterone secretion ................ vi

No. 2 June 1969

HATI, R. N. and DATT, A. G. Studies on the enzymic formation of di-iodotyrosine by a microsomal preparation of goat submaxillary gland ........ 177
MAKARA, G. B., STARK, E., PALKOVITS, M., RÉVÉSZ, T. and MIHÁLY, K. Afferent pathways of stressful stimuli: corticotrophin release after partial deafferentation of the medial basal hypothalamus ..................... 187
LEA, D. J. and ZANELLI, J. M. A study of the heterogeneity of parathyroid hormone preparations ...................................................... 195
FOLMAN, Y. and POPE, G. S. Uptake of radioactivity by uterus, vagina and skeletal muscle of immature mice after administration of [³H]oestradiol .................................................. 203
FOLMAN, Y. and POPE, G. S. Effect of norethisterone acetate, dimethylstilboestrol, genistein and coumestrol on uptake of [³H]oestradiol by uterus, vagina and skeletal muscle of immature mice ........................................ 213
Contents

No. 4 August 1969

Triantaphyllidis, E., Thompson, B. D., Barnaby, C. F. and Jasani, B. Iodination of serum proteins in vivo: relationship to irradiation and hypertrophy of the thyroid 467

Cupceancu, B., Neumann, F. and Ulloa, A. The influence of some progestogens on the mammary gland of the foetal mouse during the period of initial differentiation 475

Coutts, J. R. T. and Macnaughton, M. C. The metabolism of [4-14C]cholesterol in the pre-viable human foetus 481

Thomson, J. A. and Bissett, Joyce M. Thyroglobulin biosynthesis in severely iodine-deficient rats 489

Moor, R. M., Rowson, L. E. A., Hay, Mary F. and Caldwell, B. V. The effect of exogenous gonadotrophins on the conceptus and corpus luteum in pregnant sheep 495

Michael, C. A. and Schofield, Brenda M. The influence of the ovarian hormones on the actomyosin content and the development of tension in uterine muscle 501

Whaley, K., Soutter, W. P., Dick, W. C., Nuki, G. and Downie, W. W. Assessment of a test of adrenocortical function using $\beta^{1-25}$ corticotrophin 513

Sundaram, Kalyan and Sonenberg, M. Immunochemical studies of human growth hormone, ovine prolactin, bovine growth hormone and a tryptic digest of bovine growth hormone 517

Bindon, B. M. Blood flow in the reproductive organs of the mouse after hypophysectomy, after gonadotrophin treatment, during the oestrous cycle and during early pregnancy 523

Winnick, M., Hussa, R. O. and Winnick, T. Synthesis of corticotrophin-like polypeptides and protein by bovine hypothalamus, median eminence and pituitary tissue slices 537

Forsyth, Isabel A. and Hosking, Zena D. The design and precision of pigeon crop sac assays for prolactin 545

Shahwan, M. M., Oakley, R. E. and Stitch, S. R. Corticosteroid synthesis in vitro by adrenal tissue from newborn anencephalic infants 557

Bauminger, S., Lindner, H. R., Perel, E. and Arnon, R. Antibodies to a phyto-oestrogen: antigenicity of genistein coupled to a synthetic polypeptide 567
