JOURNAL OF ENDOCRINOLOGY

It is hoped to publish the following papers in a forthcoming issue of the Journal:

Chow, S. Y., Chang, L. R. & Yen, M. S. A comparison between the uptakes of radioactive perchlorate and iodide by rat and guinea-pig thyroid glands.

Miller, B. G. & Emmens, C. W. The oestrogenic potency in the mouse of several substances closely related to diethylstilboestrol and meso-hexoestrol.

Smith, Olive W., Wade, A. P. & Dean, F. M. Uroterpenol, a Pettenkofer chromogen of dietary origin and a common constituent of human urine.

Naqvi, R. H. & Johnson, D. C. Increased production of follicle-stimulating hormone in immature female rats by a single injection of androgen or oestrogen.

Giorgi, Eleonora P., Addis, M. & Colombo, G. The fate of free and conjugated oestrogens injected into the Graafian follicle of equines.

McDonald, P. G. & Gilmore, D. P. Effects of ovarian steroids on the norethisterone-blockade of ovulation in the rat.

Finch, C. A. & Martin, L. Hormone secretion during early pregnancy in the mouse.

Stupnicki, R., McCracken, J. A. & Williams, K. I. H. Progesterone metabolism in the ewe.

Jellinck, P. H. & Garland, Maureen. Endocrine control of the metabolism of oestradiol by rat liver microsomes.

Lesnik, HeLENA, Guszek, J. W. & Traczyk, W. Z. The release of antidiuretic hormone from the pituitary stalk after intravenous calcium chloride or magnesium chloride infusion in rats.

Donovan, B. T. The functional capacity of ovarian tissue transplanted to the spleen or kidney in the ferret.

Tindal, J. S. & Knaggs, G. S. An ascending pathway for release of prolactin in the brain of the rabbit.

Reid, I. A. & McDonald, I. R. The clearance of renin from the peripheral plasma of the marsupial Trichosurus vulpecula.

Short communications

Doar, J. W. H., Maw, D. S. J., Simpson, R. D., Audhya, T. K. & Wynn, V. The effects of growth hormone on plasma glucose, NEFA, insulin and blood pyruvate levels during intravenous glucose tolerance tests.

Dörner, G., Hinz, G. & Vedder, I. Hypogonadotrophic hypogonadism in adult male rats treated with gonadotrophin in neonatal life.

Adams Smith, W. N. Transplacental influence of oestrogen upon ovulatory mechanisms in the rat.

Fox, C. A. & Knaggs, G. S. Milk-ejection activity (oxytocin) in peripheral venous blood in man during lactation and in association with coitus.
