### Contents

**Short Communications**

**POLLARD, IRINA.** Ultrastructural evidence for the stimulation of nuclear ribonucleic acid synthesis by oestradiol-17β in the vaginal epithelium of the ovariectomized mouse .................................................. 143

**SNART, R. S., SANXAL, N. N. and AGARWAL, M. K.** Binding of corticosterone in rat liver ............................................................... 149

**DALTON, T. and SNART, R. S.** Respiratory and enzymic changes in response to steroid hormones .................................................. 159

**SMITH, JEANNE A. and WAYNFORTH, H. B.** Acid phosphatase activity in viable and regressing rat corpora lutea .................................. 167

**WHITTAKER, MARY.** The effect in vitro of thyroxine, glucagon, thyrotrophin and antithyroid drugs on ‘usual’ and ‘atypical’ human plasma cholinesterase 177

**CHAN, S. T. H. and EDWARDS, B. R.** Kinetic studies on the biosynthesis of corticosteroids in vitro from exogenous precursors by the interrenal glands of the normal, corticotrophin-treated and adrenohypophysectomized *Xenopus laevis* Daudin .............................................................. 183

**LIPTRAP, R. M.** Effect of corticotrophin and corticosteroids on oestrus, ovulation and oestrogen excretion in the sow ............................................. 197

**CHOW, SIEN YAO and WOODBURY, D. M.** Kinetics of distribution of radioactive perchlorate in rat and guinea-pig thyroid glands .......................... 207

**THODY, A. J. and SHUSTER, S.** The effects of hypophysectomy and testosterone on the activity of the sebaceous glands of castrated rats ............................................. 219

**BLAND, K. P. and DONOVAN, B. T.** Oestrogen and progesterone and the function of the corpora lutea in the guinea-pig ........................................ 225

**DESHPANDE, N., JENSEN, VIBEKE, CARSON, PAMELA, BULBROOK, R. D. and DOOUSS, T. W.** Adrenal function in breast cancer: biogenesis of androgens and cortisol by the human adrenal gland in vivo ........................................ 231

**PALKOVITS, M., DE JONG, W., VAN DER WAL, B. and DE WIED, D.** Effect of adrenocorticotrophic and growth hormones on aldosterone production and plasma renin activity in chronically hypophysectomized sodium-deficient rats .................................................. 243

---

**No. 2 June 1970**

**DÉSIS, R. P. and ALONSO, NIA.** Diuretic effect of dopamine in the rat ............................................................... 129

**CALLARD, I. P. and ZEIGLER, H., Jr.** Inhibitory effects of prolactin upon gonadotrophin-stimulated ovarian growth in the iguanid lizard, *Dipso-saurus dorsalis* ............................................................... 131

**HEITZMAN, R. J., ADAMS, T. C. and HUNTER, G. D.** The assay of corticosteroids in plasma of the dairy cow .................................................. 133

**HASAN, S. H.** The clearance of vasopressin and deaminovasopressin from the circulation of normal and hypercalcaemic rabbits ............................................. 135

**LEV-RAN, A., LAOR, J., VINS, M. and SIMON, E.** Effect of intravenous infusion of D-mannoheptulose on blood glucose and insulin levels in man .................................................. 137
**Contents**

**SHORT COMMUNICATIONS**

Mazaheri, A., Fotherby, K. and Chapman, J. R. Metabolism of lynestrenol to norethisterone by liver homogenate .................................................. 251

Hodges, J. R. and Mitchley, Susan. The effect of ‘training’ on the release of corticotrophin in response to minor stressful procedures in the rat .................. 253

Raghavan, K. S. and Chaudhury, R. R. Oxytocin levels in female rats with bilateral intrauterine devices ................................................................. 255

Jackson, I. M. D., Prentice, C. R. M. and McKiddie, Margaret T. The effect of hypothyroidism on glucose tolerance and insulin metabolism ........ 257

**No. 3 July 1970**

**Editorial** ................................................................. 263

Panaretto, B. A. and Vickery, Marion R. The rates of plasma cortisol entry and clearance in sheep before and during their exposure to a cold, wet environment .................................................. 273

Menke, Teresa M. and McLaren, Anne. Carbon dioxide production by mouse blastocysts during lactational delay of implantation or after ovariectomy 287

Clemetson, C. A. B., Mallikarjuneswara, V. R., Moshfeghi, M. M., Carr, J. J. and Wilds, J. H. The effects of oestrogen and progesterone on the sodium and potassium concentrations of rat uterine fluid .................. 309

Young, E. V. and Short, R. V. Pathways of steroid biosynthesis in the intact Graafian follicle of mares in oestrus .................................................. 321

Kendall-Taylor, Pat and Munro, D. S. The action of dibutyryl cyclic 3',5' adenosine monophosphate on the mouse thyroid gland in vitro .................. 333

Grosvenor, C. E., Mena, F., Maiweg, H., Dhariwal, A. P. S. and McCann, S. M. Effect of hypothalamic extracts and exogenous prolactin on reaccumulation of prolactin in the pituitary of the lactating rat after suckling .................................................. 339

Milner, R. D. G. The stimulation of insulin release by essential amino acids from rabbit pancreas in vitro .................................................. 347
