JOURNAL OF ENDOCRINOLOGY

It is hoped to publish the following papers in a forthcoming issue of the Journal:

Ladosky, W., Kesikowski, W. M. & Gaziri, I. F. Effect of a single injection of chlorpromazine into infant male rats on subsequent gonadotrophin secretion.

Kynčl, J. & Rudinger, J. Excretion of antidiuretic activity in the urine of cats and rats after administration of the synthetic hormonogen, \( N^2 \)-glycyl-glycyl-glycyl-[8-lysine]-vasopressin (triglycylyvasopressin).

Ensor, D. M. & Phillips, J. G. The effect of salt loading on the pituitary prolactin levels of the domestic duck (Anas platyrhynchos) and juvenile herring or lesser black-backed gulls (Larus argentatus or Larus fuscus).

De Luise, M., Martin, T. J. & Melick, R. A. Inactivation and degradation of porcine calcitonin by rat liver, and relative stability of salmon calcitonin.

Edmonds, C. J., Thompson, B. D. & Marriott, Jane. Interrelationship of the effects of aldosterone and thyroid hormones on sodium transport and electical properties of rat colon.

Jeffcoate, W. J. & Short, R. V. Dihydrotestosterone in testicular tissue, and its androgenic potency \textit{in vivo}.

SenceriI, I. R. & Thomas, G. H. Enterohepatic circulation of biliary \( [4-\text{H}] \)-progesterone metabolites in the rabbit.

Govan, A. D. T. Ovarian follicular activity in late pregnancy.

Adams, C. E. Maintenance of pregnancy relative to the presence of few embryos in the rabbit.

Bridges, T. E. & Thorn, N. A. The effect of autonomic blocking agents on vasopressin release \textit{in vivo} induced by osmoreceptor stimulation.

Das, R. M. & Benson, G. K. Alteration in the oestrous cycle length after pituitary homotransplantation in the guinea-pig.

\textit{Short communications:}

Morbs, Betty G. The effect of testosterone treatment on the uptake of \(^{3}H\) oestradiol-17β by dimethylbenzanthracene-induced rat mammary tumours.

Wallace, A. L. C., Stacy, B. D. & Thorburn, G. D. The effect of kidney ligation on the release of plasma free fatty acids following the injection of growth hormone.
For upcoming papers

Hipkin, L. J. Effect of 5-methoxytryptophol and melatonin on uterine weight responses to human chorionic gonadotrophin.

Ellett, M. H. Transmaternal influence of the environment in determining age of vaginal canalization of female offspring in the rat.

Brown-Grant, K., Exley, D. & Naftolin, F. Peripheral plasma oestradiol and luteinizing hormone concentrations during the oestrous cycle of the rat.

Olsson, Kerstin & McDonald, K. R. Lack of antidiuretic response to osmotic stimuli in the early stages of a water diuresis in sheep.

Geller, J., Baron, Aurora & Kleinman, S. Pituitary luteinizing hormone reserve in elderly men with prostatic disease.

Jones, M.T. & Bridges, P. K. Effects of tetracosactrin on plasma corticosteroids in subjects of different body build.
