SUBJECTS

Accessory organs, genital, androgenic response of T4-treated and castrated rats exposed to cold (Das & Perrault) 591

Achilles tendon reflex-time, diurnal variations, man (Zamrazil et al.) 403

Adrenal gland, action of ACTH on free nucleotide pool and RNA synthesis in, rat (Boyadji & Hadjiolov) 193

conversion of corticosterone to aldosterone by glomerulosa of, rat (Haning et al.) xii cortex, cell proliferation in prepubertal male rat, autoradiographic study (Wright) 599

cortex, effects of hypophysectomy on function of, duck (Bradly & Holmes) 437

cortex, functional zonation of, opossum (Vinson et al.) 131

effect of melatonin and precursors on weight, rat (De Prosp & Hurley) 545

isolation-induced hypertrophy of, female mouse (Brain et al.) xix

1-oxgenated steroids in urine of infant with adrenocortical carcinoma (Edwards et al.) 181

steroid secretion by, Tasmanian devil, Eastern native cat, two carnivorous marsupials (Weiss & Richards) 263

steroids, effect on electrical potential of small intestine in vivo, rat (Noble & Matty) 377

weight, genetic variation in, mouse (Badr & Spickett) 105

Adrenalectomy, effect on sebum secretion, rat (Thody & Shuster) 325

Adrenocorticotropic hormone (ACTH), α1-24, iodine-labelled, distribution of, intact guinea-pig (Golder & Byons) 649

action on free nucleotide pool and RNA synthesis, rat adrenal and liver (Boyadji & Hadjiolov) 193

concentrations in foetal and maternal plasma, latter half of gestation, sheep (Alexander et al.) 179

daily rhythm of secretion, mouse, rat (Cheifetz) xi

effect on branchial Na- and K-activated ATPase, eel (Milne et al.) 177

effect on lactogenesis, pseudopregnant rabbit (Chadwick) 1

effect on sebum secretion, rat (Thody & Shuster) 325

effect on sloughing cycle, hypophysectomized lizard (Chiu & Phillips) 611

localization of source in pars distalis, frog (van Kemenade) 349

Aldosterone, corticosterone conversion to, adrenal glomerulosa, rat (Haning et al.) xii

effect on electrical potential of small intestine in vivo, rat (Noble & Matty) 377

Aminoglutethimide, effect on steroid excretion in carcinoma of breast (Lyne et al.) xxi

Amphibians, bull frog tadpole, tRNA methylases during T4-induced differentiation (Pillinger et al.) 547

comparison of plasma vasotocin levels in cel and (Bentley) 183

incorporation of [PH]leucine in pars intermedia after change of background, toad (Whur et al.) xxiv

localization of corticotrophic function in pituitary of common frog (van Kemenade) 349

MSH-melatonin antagonism in relation to colour change, toad (Dierst-Davies et al.) 573

ultrastructure of ‘MSH cells’ of pars intermedia, toad (Weatherhead et al.) xxv

Androgens, metabolism in vitro by prostate and testis, dog (Harper et al.) 213

sterilization of female offspring of mothers treated during pregnancy with, guinea-pig (Brown-Grant & Sherwood) 277

synthesis by adrenocortical tissue, possum (Vinson et al.) 131

Androsta-4,16-dien-3-one, in plasma and urine, man (Brooksbank & Wilson) iii

Androstenedione, formation in vitro, canine prostate and testis (Harper et al.) 213

radioimmunoassay for (Joffoate) ii

Antibody, to neurophysin, in patients treated with Pitressin (Martin) 553

Antigenicity, of HGH and HCSM, monkey (Beck et al.) 683

Arginine vasotocin, effect on salt gland, guinea-pig (Peaker) xxvi

Assay, for LATS in thyrotoxicosis, comparison of two methods (Ensor et al.) 487

immunoradiometric, of PTH (Addison et al.) 521

anti-inflammatory steroids, use of skin fibroblasts (Brotherton) xv

saturation analysis of cyclic AMP (Albano et al.) xvii

saturation analysis, plasma corticosterone measured by, man (Piysaena et al.) xvi

ATPase, branchial Na- and K-activated, effects of salinity, hypophysectomy and ACTH on, eel (Milne et al.) 177

Autoradiography, study of cell proliferation in adrenal cortex, rat (Wright) 599

Behaviour, endocrine control of anti-aggression pheromone, female mouse (Mugford & Newell) 225

male courtship, stimulatory effect on gonadotrophin secretion in female dove (Barfield) 305

Betamethasone, effect on glucose utilization and oxidation, sheep (Reilly & Ford) 19

Birds, anterior and posterior portal vessels in pituitary of (Dominic & Singh) 355

behavioural stimulation of gonadotrophin secretion, ring dove (Barfield) 305

duck, effects of hypophysectomy on adrenocortical function (Bradley & Holmes) 437

effect of pituitary prolactin of different vertebrate classes on lipids of crop epithelium, pigeon (Chadwick & Jordan) 51
Bovine, effects of arginine vasotocin on salt gland of (Peaker) xxvi
intestinal absorption in duck maintained on fresh water and hypertonic saline (Crocker & Holmes) xviii
Castration, toad, effect of chlorpropamide and related compounds on water transport across (Wales) 551
Blastocyst, early action of oestrogen on uridine incorporation during delayed implantation, rat (Moha & Prasad) 87
Blood, adrenal venous, steroids in, two carnivorous marsupials (Weiss & Richards) 263
Body weight, effect of progesterone and gonadectomy on, hamster (Hervey et al.) xxviii
Bone, decreased response to parathyroid hormone in Mg-deficient rat (MacManus et al.) 253
hydroxyproline, effect of calcitonin on [3H]proline incorporation into, rat (Kalu & Foster) 233
protective role of calcitonin during pregnancy and lactation, rat (Lewis et al.) ix
RNA synthesis, stimulation by PTH, rat (Steinberg & Nichols) 493
Brain, cerebral cortex, cortisol and 20-dihydrocortisols in, after death, man (Brooksbank et al.) xiv
effect of hypothalamic deafferentation on response of paraventricular units to oxytocin, rat (Dyball & Dyer) xxvii
effect of surgical isolation of hypothalamus on reproductive function, female rat (Butler & Donovan) 293
Breeding season, effect of bilateral superior cervical ganglionectomy on, ferret (Thorpe) xxiii
Calcitonin, effect of progesterone on release of, sheep (Philippo et al.) vi
effect on [3H]proline incorporation into bone hydroxyproline, rat (Kalu & Foster) 233
physiological role of, rat (Lewis et al.) ix
porcine, radioimmunoassay for (Buckle) viii
releasing substances, structure-activity relationship (Care & Bruce) viii
Calcium, effect of parathyroid hormone on release from bone in Mg-deficient rat (MacManus et al.) 253
effect of parathyroidectomy on balance with Mg and P, rat (Goulding & Malthus) 29
Capacitation, fertilization and, during pseudopregnancy, rabbit (Hunter) 581
Carcinoma, adrenocortical, 1-oxygenated steroids in urine of infant with (Edwards et al.) 181
breast, steroid excretion after aminoglutethimide and prednisolone (Lyne et al.) xxi
Castreation, atrophy of ventral gland after, deermouse (Blum et al.) 695
Catecholamines, free, urinary excretion in Graves' disease (Bayliss & Edwards) 197
Cattle, early pregnancy test for (Robertson & Sards) 407
histochemistry of seminal vesicles during postnatal development (Rama et al.) 259
Cell, proliferation and histological changes, effect of oestradiol on, mouse uterus and vagina (Galand et al.) 243
proliferation in rat adrenal cortex, autoradiographic study (Wright) 599
thyroid epithelium, effect of starvation on height, rat (Doniach & Swettenham) 71
Chlorpropamide, and related compounds, effect on water transport across toad bladder (Wales) 551
Cholesterol, labelled, formation of progesterone and pregnenolone in vitro from, mid-term foeto-placental unit, man (Baird et al.) xxxii
ovarian, supply of electrons for side-chain cleavage of (Robinson & Stevenson) xxxii
testicular, effects of prolactin and LH on stores of, mouse (Bartke) 317
Chorionic gonadotrophin, human, review of physicochemical properties and molecular structure (Halelma) 393
Chorionic somato-mammotrophin, human, HGH and, antigenicity of, monkey (Beck et al.) 683
human, semi-automated measurement (Letchworth et al.) v
Circadian rhythm, Achilles tendon reflex-time, thyroid function and, man (Zamrazil et al.) 403
of ACTH and corticosterone secretion, mouse, rat (Cheifetz) xi
plasma tyrosine, fasting subjects (Cavagnini & Litta-Modignani) 9
Climate, thyroid activity and, Jamaicans (Holland et al.) 537
Clomiphene citrate, effect on gonadotrophin secretion, rat (Koch et al.) 13
Cold, androgenic response of genital organs of T4-treated and castrated rats exposed to (Das & Ferrau) 591
Colour change, MSH-melatonin antagonism in relation to, toad (Dierst-Davies et al.) 573
Corpora lutea, atretica, in ovarian grafts, rat (Welsch) 693
side-chain cleavage in intact mitochondria from, pig (Robinson & Stevenson) xxxii
Corticosteroids, effect on lactogenesis, pseudo-pregnant rabbit (Chadwick) 1
in human cerebral cortex after death by suicide or other causes (Brooksbank et al.) xiv
synthesis by adrenocortical tissue, possam (Vinson et al.) 131
Corticosterone, conversion to aldosterone by adrenal glomerulosa, rat (Haning et al.) xii
daily rhythm of secretion, mouse, rat (Cheifetz) xi
in rats killed sequentially during the adrenocortical cycle (Dunn & Scheving) 347
plasma, measured by saturation analysis, man (Piyasena et al.) xvi
Cortisol, binding by proteins in lymph, sheep (Paterson & Hills) 697
effect on electrical potential of small intestine in vivo, rat (Noble & Matty) 377
Cortisol, in cerebral cortex after death by suicide or other causes (Brooksbank et al.) xiv
Creatinine index, of urinary 17-oxosteroids in normal subjects (Kroze & Galváněk) 175
Crop epithelium, effect of pituitary prolatin of different vertebrate classes on lipids of, pigeon (Chadwick & Jordan) 51
Cyclic AMP, saturation analysis of (Albano et al.) xvii
Deermouse, Peromyscus maniculatus bairdii, atrophy of ventral gland after castration (Blum et al.) 695
Peromyscus maniculatus bairdii, hormone regulation of neuronal activity in response to vaginal stimulation (Zolovick & Eleftheriou) 59
Diet, effect of starvation on thyroid cell height and goitrogenic response, rat (Doniach & Swettenham) 71
20-Dihydrocortisols, in cerebral cortex after death by suicide or other causes (Brooksbank et al.) xiv
Dog, prostate and testis, metabolism in vitro of steroids by (Harper et al.) 213
Eel, effects of salinity, hypophysectomy and ACTH on branchial Na- and K-activated ATPase (Milne et al.) 177
plasma vasotocin levels, comparison with those of amphibians (Bentley) 183
Eggs, fertilized, effects of ovariectomy or hypophysectomy on 1st day of pregnancy on development and transport, rat (Wu et al.) 507
Electro-encephalograph (EEG), response to vaginal stimulation, deermouse (Zolovick & Eleftheriou) 59
Enzymes, ATPase, effects of salinity, hypophysectomy and ACTH on branchial Na- and K-activated, eel (Milne et al.) 177
reductases and dehydrogenases, location by histochemistry, postnatal seminal vesicles, bull (Rama et al.) 259
supply of electrons for ovarian cholesterol side-chain cleavage (Robinson & Stevenson) xxxii
Ferguson reflex, elimination by section of pelvic nerves, lactating goat (Peeters et al.) 125
Ferret, effect of bilateral superior cervical sympathetic ganglionectomy on oestrus (Thorpe) xxiii
Fertilization, capacitation and, during pseudopregnancy, rabbit (Hunter) 581
Fibroblasts, skin, for assay of anti-inflammatory steroids (Brotherton) xv
Fish, eel, effects of salinity, hypophysectomy and ACTH on branchial Na- and K-activated ATPase (Milne et al.) 177
plasma vasotocin levels, comparison with those of amphibians (Bentley) 183
Foeto-placental unit, mid-term, progesterone and pregnenolone formed in vitro from cholesterol, man (Baird et al.) xxxii
Foetus, pituitary organ culture, secretion of immuno-reactive LH and FSH by, man (Groom et al.) 335
plasma concentrations of ACTH, vasopressin and oxytocin in second half of gestation, sheep (Alexander et al.) 179
Follicle-stimulating hormone (FSH), avian, mammalian and piscine, actions in lizard (Licht & Stockell Hartree) 113
immuno-reactive, secretion of human foetal pituitary in organ culture (Groom et al.) 335
in induction of ovulation, guinea-pig (Reed & Hounslow) 203
review of physicochemical properties and molecular structure (Hellemans) 393
Frog, common, localization of corticotrophic function in pars distalis of (van Kemenade) 349
tRNA methylases during T3-induced differentiation, tadpole (Pillinger et al.) 547
Genetic variation, and adrenal weight in young adult mice (Badr & Spickett) 105
Glucose, effect of betamethasone on utilization and oxidation, sheep (Reilly & Ford) 19
in drinking water, influence on neurohypophysial vasopressin content, rat (Dyball & Powell) 185
Goat, lactating, effect of section of pelvic nerves (Peeters et al.) 125
Gonadectomy, effect of progesterone and, on body weight and composition, hamster (Hervey et al.) xxviii
Gonadotrophins, avian, mammalian and piscine, actions in lizard (Licht & Stockell Hartree) 113
effect of promethazine and clomiphene on secretion of, rat (Koch et al.) 13
review of physicochemical properties and molecular structure (Hellemans) 393
secretion, stimulation by male courtship behaviour, ring dove (Barfield) 305
stimulation of ovary by, rat (Stevenson & Forman) xxii
Graves' disease, urinary excretion of free catecholamines in, man (Bayliss & Edwards) 167
Growth hormone, bovine, effect on mammary organ culture, mouse (Wang et al.) iv;
(Hallowes & Wang) v
human, antigenicity of HCSM and, monkey (Beck et al.) 683
Guinea-pig, 'early androgen syndrome' in (Brown-Grant & Sherwood) 277
induction of ovulation in (Reed & Hounslow) 203
intact, distribution of [131I]a2+24 ACTH in (Golder & Boyas) 649
Hamster, effect of progesterone and gonadectomy on body weight and composition (Hervey et al.) xxviii
Human chorionic gonadotrophin, review of physicochemical properties and molecular structure (Hellemans) 393
Index

Human chorionic somato-mammotrophin, HGH and, antigenicity of, monkey (Beck et al.) 683
plasma, semi-automated measurement of (Letchworth et al.) v

Human growth hormone (HGH), antigenicity of HCSM and, monkey (Beck et al.) 683
3α-Hydroxy-5α-androst-16-ene, in human plasma and urine (Brooksbank & Wilson) iii

Hydroxyproline, bone, effect of calcitonin on [3H]proline incorporation into, rat (Kalu & Foster) 233
effect of parathyroid hormone on release from bone in Mg-deficient rat (MacManus et al.) 253

Hypophysectomy, effect on adrenocortical function, duck (Bradley & Holmes) 437
effect on branchial Na+ and K-activated ATPase, eel (Milne et al.) 177
effect on response of sebaceous glands to TP, rat (Thody & Shuster) 329
effect, with and without thyrotrophin and ACTH injections, on the sloughing cycle, lizard (Chiu & Phillips) 611
on 1st day of pregnancy, effect on tubal egg transport, rat (Wu et al.) 507
–thyroidectomy, effect of prolactin on sloughing cycle after, lizard (Chiu & Phillips) 619

Hypothalamo–hypophysial system, ultrastructure of (a review) (Livingston) 357

Hypothalamus, deafferentation, effect on firing rates and response to oxytocin of paraventricular units, rat (Dyball & Dyer) xxvii
effect of ovarian steroids on thresholds for ovulation, rat (McDonald & Gilmore) 421
hormonal modulation of unit activity and EEG response to vaginal stimulation, deermouse (Zolovich & Eleftheriou) 59
response to fall in circulatory thyroid hormone, starved rat (Doniach & Swettenham) 71
surgical isolation of, effect on reproductive function, female rat (Butler & Donovan) 293

Immunoradiometric assay of PTH (Addison et al.) 521

Implantation, delayed, early action of oestrogen on uridine incorporation by blastocyst and uterus, rat (Mohla & Prasad) 87
effect of proximity of strange males on, suckling pregnant mice (Bloch) 431

Insulin, stimulation of secretion by 4-phenylthiocarbamic acid, sheep (Hertlelendy et al.) 699

Intestinal absorption, duck maintained on fresh water and hypertonic saline (Crocker & Holmes) xviii

Intestine, small, adrenal steroids and electrical potential in vivo, rat (Noble & Matty) 377

Isotocin, 4-threonyl analogues of (Sawyer & Manning) 161

Kidney, effect of parathyroidecctomy on nephrocalcinosis, rat (Goulding & Malthus) 29
RNA synthesis, stimulation by PTH, rat (Steinberg & Nichols) 493

Lactation, analysis of mammary polysomes and ribosomes during, rabbit (Herriman et al.) 667
effect of perphenazine on mammary development and, dairy ewe (Morag et al.) 351
elimination of Ferguson reflex by section of pelvic nerves, goat (Peeters et al.) 125
implantation and proximity of strange males, pregnant mice (Bloch) 431
lactogenic effect of ACTH, and adrenal corticosteroids, pseudopregnant rabbit (Chadwick) 1
protection of skeleton by calcitonin during, rat (Lewis et al.) ix

Lipid, crop epithelial, effect of pituitary prolactin of different vulture classes on, pigeon (Chadwick & Jordan) 51

Liver, action of ACTH on free nucleotide pool and RNA synthesis in, rat (Boyadjiev & Hadjiolov) 193
effect of neonatal administration of sex hormones on microsomal phospholipid turnover, rat (Tob) 659

Lizard, Anolis carolinensis, actions of mammalian, avian and piscine gonadotrophins in (Licht & Stockell Hartree) 113
Gekko gecko L., effect of hypophysectomy with and without thyrotrophin and ACTH, on sloughing cycle (Chiu & Phillips) 611
Gekko gecko L., effect of prolactin on sloughing cycle after hypophysectomy and thyroidectomy (Chiu & Phillips) 619
Gekko gecko L., role of prolactin in sloughing cycle (Chiu & Phillips) 625

Long-acting thyroid stimulator (LATS), bioassay of, comparison of two methods (Ensor et al.) 487

Luteinizing hormone (LH), avian, mammalian and piscine, actions in lizard (Licht & Stockell Hartree) 113
effect on progesterone synthesis by ovarian tissue in vitro, rat (Watson) 471
effect, with prolactin, on cholesterol stores in testis, mouse (Bartke) 317
effect, with prolactin, on spermatogenesis, hypophysectomized mouse (Bartke) 311
immuno-reactive, secretion of, human foetal pituitary in organ culture (Groom et al.) 335
in induction of ovulation, guinea-pig (Reed & Hounslow) 203
pituitary concentration after PMS treatment, immature rat (Zarrow & Dinius) 387
review of physicochemical properties and molecular structure (Hellerma) 393

Lymph, binding of cortisol by proteins in, sheep (Paterson & Hills) 697

Magnesium, deficiency, decreased response to parathyroid hormone in, rat (MacManus et al.) 253
effect of parathyroidecctomy on balance with P and Ca, rat (Goulding & Malthus) 29
Malate, stimulation of ovary by, rat (Stevenson & Forman) xxii
Mammary gland, analysis of ribosomes and polysomes from, pregnant lactating rabbit (Herriman et al.) 667

carcinoma of, steroid excretion after amino-glutethimide and prednisolone, man (Lyne et al.) xxi

effect of ACTH on lactogenesis, pseudopregnant rabbit (Chadwick) 1

effect of perphenazine on development of, dairy ewe (Morag et al.) 351

effect of prolactin and GH on culture of, mouse (Wang et al.) iv; (Hallowes & Wang) v
effect of prolactin on ultrastructure and biochemistry of, pseudopregnant rabbit (Fiddler et al.) 459

Oestrogen requirements of transplanted tumours of, mouse (Lee) 353

ovarian hormone stimulation of macromolecule synthesis, mouse (Banerjee & Rogers) 39

Man, C₁₉ 16-unsaturated steroids in testicular feminization (Bicknell & Gower) i
carcinoma of breast, steroid excretion after aminoglutethimide and prednisolone (Lyne et al.) xxi
corticosteroids in cerebral cortex after death by suicide or other causes (Brooksbank et al.) xiv

creatinine index of individual urinary 17-oxygenated hormones in (Kreze & Galvánek) 175
diurnal variations in Achilles tendon reflex-time (Zamrazil et al.) 403
diurnal variations in plasma tyrosine in (Cavagnini & Litta-Modignani) 9

fetal pituitary organ culture, secretion of immuno-reactive LH and FSH by (Groom et al.) 335

metabolism of testosterone by skin in normal subjects and in testicular feminization (Jenkins & Ash) 515

normal and with thyroid disease, comparison between uptake of ¹²₅I and ¹³¹I by thyroid (McGill et al.) 531

1-oxygenated steroids in urine of infant with adrenocortical carcinoma (Edwards et al.) 181

plasma and urine, androsta-4,16-dien-3-one and 3α-hydroxy-5α-androst-16-ene in (Brooksbank & Wilson) iii

plasma corticosterone measured by saturation analysis (Fyianena et al.) xvi

plasma HCS, semi-automated measurement of (Letchworth et al.) ν

testosterone in mid-term foetal-placental unit in vitro (Baier et al.) xxxii

reduced thyroid activity in Jamaicans (Harland et al.) 537

synthetic TRF in (Ormston et al.) x

thyroid hormone in serum after thyroid stimulation (Williams et al.) xi

thyrotoxicosis, bioassay of LATS, comparison of two methods (Ensor et al.) 487
treated with Pitressin, circulating antibodies to neurophysin in (Martin) 553

urinary excretion of free catecholamines in Graves' disease (Bayliss & Edwards) 167

Marsupials, adrenal steroid secretion in, Tasmanian devil and Eastern native cat (Weiss & Richards) 263

brush papssum, functional zonation of adrenocortical tissue (Vinson et al.) 131

Melanocyte-stimulating hormone (MSH), and melatonin antagonism, relation to colour change, toad (Dierst-Davies et al.) 573

ultrastructure of MSH cells of pars intermedia, toad (Weatherhead et al.) xxv

Melanophore-stimulating hormone, effects of background colour on ultrastructure of cells producing, toad (Weatherhead et al.) xxv

Melatonin and precursors, effects on rat uterus, adrenal, ovary, pituitary (De Prospo & Hurley) 545

– MSH antagonism in relation to colour change, toad (Dierst-Davies et al.) 573

Mesotocin, 4-threonine analogues of (Sawyer & Manning) 151

Metabolism, glucose, betamethasone-treated sheep (Reilly & Ford) 19

in vitro of steroid hormones, canine prostate and testis (Harper et al.) 213

of steroids in canine prostate and testis (Harper et al.) 213

of testosterone by skin, normal subjects and in testicular feminization (Jenkins & Ash) 515

phospholipid, effect of neonatal administration of sex hormones on, rat (Toh) 669

progesterone, kinetics of, pregnant sheep (Slotin et al.) xxx

Methallibure (ICI 53,828), effect on serum and pituitary thyrotrophin, rat (Bourke et al.) 569

Microsomes, hepatic, effect of sex hormones on phospholipid metabolism in, rat (Toh) 659

Milk, effect of ACTH on lactogenesis, pseudopregnant rabbit (Chadwick) 1

effect of perphenazine on yield, dairy ewe (Morag et al.) 351

ejection, elimination of Ferguson reflex by section of pelvic nerves, lactating goat (Peeters et al.) 125

Monkey, Macaca mulatta, antigenicity of HCSM and HGH in (Beek et al.) 683

Mono-amine oxidase inhibitors, effect of phenelzine derivatives on maintenance of pregnancy (Robson et al.) 635

Mouse, circadian rhythm of ACTH and corticosterone secretion (Cheifetz) xi

female, endocrine control over production of anti-aggression pheromone (Mugford & Nowell) 225

female, isolation-induced adrenal hypertrophy in (Brain et al.) xix

genetic variation in adrenal weight (Badr & Spickett) 105

hypophysectomized, effect of prolactin on spermatogenesis (Bartke) 311

maintenance of pregnancy during pre-implantation period after treatment with phenelzine derivatives (Robson et al.) 635
Mouse, mammary gland effects, culture of prolactin and GH on (Wang et al.) iv; (Hallowes & Wang) v mammary gland, stimulation of macromolecule synthesis by ovarian hormones during early development (Banerjee & Rogers) 39 oestrogen requirements of transplanted mammary tumours (Lee) 353 suckling pregnant, implantation and proximity of strange males (Bloch) 431 testis, effects of prolactin and LH on cholesterol stores of (Bartlo) 317 uterus, vagina, effect of oestradiol on cell proliferation in (Galand et al.) 243

Nephrocalcinosis, effect of parathyroidectomy on, rat (Goulding & Malthus) 29 Neurohypophysial hormones, in foetal and maternal plasma, sheep (Alexander et al.) 179 subcellular aspects of storage and release (a review) (Livingston) 357 4-threonine analogues of, with enhanced oxytocin-like activities (Sawyer & Manning) 151 tritiated, isolation from posterior pituitary, rat (Pickering & Jones) 93 Neurohypophysis, effects of urea, glucose or KCl in drinking water on vasopressin content of, rat (Dyball & Powell) 185 isolated subcellular particles of (a review) (Livingston) 357 Neurophysin, circulating antibodies to, patients treated with Pitresxin (Martin) 553 Nucleosides, stimulation of synthesis by ovarian hormones, mouse mammary gland (Banerjee & Rogers) 39 Nucleotides, free pool, action of ACTH on, rat adrenal and liver (Boyadjiev & Hadjiolov) 193

Obituary, Professor S. J. Folley, F.R.S. An appreciation 191 Oestradiol, effect on hypothalamic thresholds for ovulation, rat (McDonald & Gilmore) 421 Oestradiol-17β, changes in ovarian secretion of around oestrus, sheep (Cox et al.) 345 effect on uridine incorporation by blastocyst and uterus during delayed implantation, rat (Mohl & Frasad) 87 stimulation of nucleic acid and protein synthesis in mammary gland, mouse (Banerjee & Rogers) 39 Oestradiol benzoate, effect of neonatal administration on hepatic microsomal phospholipid, rat (Toh) 609 effects on cell proliferation and histological changes, mouse uterus and vagina (Galand et al.) 243 Oestradiol monobenzoate, effect on anti-aggression pheromone production, spayed mouse (Mugford & Nowell) 225 Oestrogen, early action on incorporation of uridine into blastocyst and uterus during delayed implantation, rat (Mohl & Frasad) 87 requirements of transplanted mammary tumours, mouse (Lee) 353 Oestrous cycle, changes in ovarian secretion of oestradiol-17β around oestrus, sheep (Cox et al.) 345 effect of bilateral superior cervical sympathetic ganglionectomy on, ferret (Thorpe) xxiii effect of promethazine and clomiphene on, rat (Koch et al.) 13 effect of stage on hypothalamic unit activity and EEG response to vaginal stimulation, deer-mouse (Zolovick & Eleftheriou) 59 effect of surgical isolation of hypothalamus on, rat (Butler & Donovan) 293 of female offspring of mothers treated with TP during pregnancy, guinea-pig (Brown-Grant & Sherwood) 293 Opossum, brush, functional zonation of adrenocortical tissue (Vinson et al.) 131 Ovariectomy, on 1st day of pregnancy, effect on tubal egg transport, rat (Wu et al.) 507 Ovary, changes in oestradiol-17β secretion around oestrus, sheep (Cox et al.) 345 corpora lutea striae in grafts of, rat (Welschen) 693 effect of male courtship behaviour on gonadotrophin secretion, female dove (Barfield) 305 effect of melatonin and precursors on weight, rat (De Prosp & Hurley) 545 malate and gonadotrophin stimulation of, rat (Stevenson & Forman) xxii progesterone synthesis in response to LH by tissue in vitro, rat (Watson) 471 supply of electrons for cholesterol side-chain cleavage (Robinson & Stevenson) xxiii Ovulation, after urethane anaesthesia, rat (Lincoln & Kelly) xxiv effect of ovarian steroids on hypothalamic thresholds for, rat (McDonald & Gilmore) 421 induction of, guinea-pig (Reed & Hounslove) 203 17-Oxosteroids, urinary, creatinine index of, normal subjects (Kreze & Galvánáky) 175 1-Oxogonstacked steroids, in urine of infant with adrenocortical carcinoma (Edwards et al.) 181 Oxytocin, effect of hypothalamic desensitisation on response of paraventricular units to, rat (Dyball & Dyer) xxvii in foetal and maternal plasma, sheep (Alexander et al.) 179 radioactive, isolation from posterior pituitary after injection of [3H]tyrosine into cerebrospinal fluid, rat (Pickering & Jones) 93 4-threonine analogues of (Sawyer & Manning) 151 Oxytocin-like, enhanced activity of 4-threonine analogues of oxytocin, mesotocin and isotocin (Sawyer & Manning) 151 Parathyroid hormone (PTH), bovine, human and porcine, comparison using radioimmunoassay (Woodhead & O'Riordan) 79
Parathyroid hormone (PTH), differential stimulation of bone and kidney RNA synthesis by, rat (Steinberg & Nicholls) 493
immunological properties of, pig (Woodhead & O'Riordan) 79
immunoradiometric assay of (Addison et al.) 552
response to, Mg-deficient, rat (MacManus et al.) 253
Parathyroidectomy, effect on nephrocalcinosis and Ca, P and Mg balance, rat (Goulding & Malthus) 29
4-Pentenoic acid, stimulation of insulin secretion by, sheep (Hertelendy et al.) 699
Peptides, as calcitonin-releasing substances: structure–activity relationship (Care & Bruce) viii
Perphenazine, effect on mammary development and milk yield, dairy ewe (Morag et al.) 351
Phenelzine, effect of derivatives of, on maintenance of pregnancy during pre-implantation period, mouse (Robson et al.) 635
Pheromone, anti-aggression, endocrine control of production, female mouse (Mugford & Nowell) 225
effect of strange males on implantation in suckling, pregnant mice (Bloch) 431
Phosphate, inorganic, effect of parathyroid hormone on release from bone in Mg-deficient rat (MacManus et al.) 253
Phospholipids, hepatic microsomal, effect of neonatal administration of sex hormones on rat (Toh) 659
Phosphorus, effect of parathyroidectomy on balance with Mg and Ca, rat (Goulding & Malthus) 29
Pig, calcitonin, radioimmunoassay for (Buckle) viii
eyoung pregnancy test for (Robertson & Sarda) 407
parathyroid hormone, immunological properties of (Woodhead & O'Riordan) 79
Pitressin, patients treated with, circulating antibodies to neurophysin in (Martin) 553
Pituicytes, subcellular aspects of storage and release of neurohypophyseal hormones (a review) (Livingston) 357
Pituitary gland, anterior and posterior portal vessels in, birds (Dominic & Singh) 355
effect of melatonin and precursors on weight, rat (De Prospo & Hurley) 545
extract of anterior, induction of ovulation with, guinea-pig (Reed & Hounslow) 203
[3H]leucine incorporation by pars intermedia after change of background, toad (Whur et al.) xxiv
LH in, after PMS treatment, immature rat (Zarrow & Dinius) 387
light- and electron-microscopical observations on pars intermedia, rabbit (Cameron & Foster) 479
localization of corticotrophic function in pars distalis of, frog (van Kemenade) 349
organ culture of human foetal, secretion of immuno-reactive LH and FSH by (Groom et al.) 335
posterior, isolation of radioactive oxytocin and vasopressin from, after injection of labelled tyrosine into cerebrospinal fluid, rat (Pickering & Jones) 93
thyrotrophin, influence of metathalibure on levels in, rat (Bourke et al.) 569
ultrastructure of 'MSH cells' of pars intermedia, toad (Weatherhead et al.) xxv
Placenta, permeability to maternal T4, sheep (Hopkins & Thorburn) 549
Plasma, androsta-4,16-dien-3-one and 3x-hydroxy-5a-androst-16-ene in, man (Brooksbank & Wilson) iii
corticosterone levels in rats killed sequentially during the adrenocortical cycle (Dunn & Scheving) 347
corticosterone, measured by saturation analysis, man (Fiyasena et al.) xvi
failure to detect vasotocin levels in eels similar to those in amphibians (Bentley) 183
foetal and maternal, ACTH, vasopressin and oxytocin in, sheep (Alexander et al.) 179
HCS, semi-automated measurement of, man (Letchworth et al.) v
ovarian venous, changes in oestrogen concentration around oestrus, sheep (Cox et al.) 345
tyrosine, daily rhythm in fasting subjects (Cavagnini & Litta-Modignani) 9
Polysomes, from rabbit mammary glands during pregnancy and lactation, analysis of (Herriman et al.) 667
Potassium chloride, in drinking water, influence on neurohypophysial vasopressin content, rat (Dyball & Powell) 185
Prednisolone, and steroid excretion in carcinoma of breast (Lyne et al.) xxi
Pregnancy, analysis of mammary polysomes and ribosomes during, rabbit (Herriman et al.) 667
early, normal and after hormone treatment, progesterone levels during, sheep (Haynes & Lamming) xxx
effect of ovariectomy or hypophysectomy on 1st day of, on tubal egg transport (Wu et al.) 507
maintenance during pre-implantation period, mice treated with phenerazine derivatives (Robson et al.) 635
protection of skeleton by calcitonin during, rat (Lewis et al.) ix
second half, ACTH, vasopressin and oxytocin in foetal and maternal plasma during, sheep (Alexander et al.) 179
test for, cow, ewe and sow (Robertson & Sarda) 407
Pregnant mare serum gonadotrophin (PMS), pituitary LH after, immature rat (Zarrow & Dinius) 387
Pregnenolone, formation from cholesterol by mid-term foetal-placental unit in vitro, man (Baird et al.) xxxii
Pre-implantation, maintenance of pregnancy during period of, mouse treated with phenceline derivatives (Robson et al.) 635
Progesterone, comparison of levels during pregnancy in normal and hormone-treated sheep (Haynes & Laming) xxx

radioimmunoassay, for porcine calcitonin (Buckle) viii

for testosterone, androstenedione and other 3-oxo-4-unsaturated steroids (Jeffcoat) ii

of poreine PTH, comparison with human and bovine PTH using (Woodhead & O'Riordan) 79

solid phase, for ovine prolactin (McNeilly) 141

Rat, adrenal glomerulosa, conversion of corticosterone to aldosterone by (Hanig et al.) xii

adrenal, liver, action of ACTH on free nucleotide pool and RNA synthesis in (Boyadjiev & Hadjiolov) 193

adrenal, ovary, pituitary, uterus, effect of melatonin and precursors on (De Prosep & Hurley) 545

adrenal steroids and electrical potential of small intestine in vivo (Noble & Matty) 377

adult female, increased sebum secretion after neonatal testosterone (Thody & Shuster) 677

calcitonin and bone hydroxyproline formation (Kalou & Foster) 233

calcitonin and protection of skeleton during pregnancy and lactation (Lewis et al.) ix

ciracidian rhythm of ACTH and corticosterone secretion (Cheifetz) xi

corpora lutea atresia in ovian grafts (Welschen) 693

differential stimulation of bone and kidney RNA synthesis by PTH (Steinberg & Nicholls) 493

early action of oestrigen on uridine incorporation in blastocyst and uterus during delayed implantation (Mohla & Prasad) 89

adrenal, adrenal, effect of adrenalectomy and ACTH on sebnum secretion (Thody & Shuster) 325

adrenal and adrenal, effect of hypothalamic deafferentation on firing rates and response to oxytocin of paraventricular units in (Dyball & Dyer) xxvii

adrenal and hypothalamic thresholds for ovulation (McDonald & Gilmore) 421

effect of ovariectomy or hypophysectomy on 1st day of pregnancy on tubal egg transport (Wu et al.) 507

effect of parathyroidectomy on nephrocalcinosis and Ca, P and Mg balance (Goulding & Malthus) 29

effect of promethazine and clomiphen on gonadotrophin secretion in (Koch et al.) 13

effect of starvation on thyroid cell height and goitrogenic response (Doniach & Swatstonham) 71

female, effect of surgical isolation of hypothalamic on reproductive function (Butler & Donovan) 293

immature, pituitary LH levels after PMS treatment (Zarrow & Dinius) 387

influence of methallibure on serum and pituitary thyrotrophin (Bourke et al.) 569

isolation of [H]neurohypophysial hormones in (Pickering & Jones) 93

neonatal, effect of sex hormones on phospholipid metabolism (Toh) 659
Index

Rat, neurohypophysial vasopressin, content of, influence of urea, glucose or KCl in drinking water on (Dyball & Powell) 185
ovarian tissue in vitro, progesterone synthesis in response to LH (Watson) 471
ovary, stimulation by malate and gonadotrophins (Stevenson & Forman) xxii
ovulation after urethane anaesthesia (Lincoln & Kelly) xxiv
plasma corticosterone in, killed sequentially during adrenocortical cycle (Dunn & Scheving) 347
prepupetal male, autoradiographic study of cell proliferation in adrenal cortex (Wright) 599
response to parathyroid hormone in Mg deficiency (MacManus et al.) 253
T4-treated and castrated, androgenic response of genital accessory organs during cold exposure (Das & Ferrault) 591
Reproductive function, effect of surgical isolation of hypothalamus on, female rat (Butler & Donovan) 293
of female offspring of mothers treated with TP during pregnancy, guinea-pig (Brown-Grant & Sherwood) 293
Reptiles, actions of mammalian, avian and piscine gonadotrophins in lizard (Licht & Stockey Hartree) 113
lizard, effect of hypophysectomy, with and without thyrotrophin and ACTH, on sloughing cycle (Chiu & Phillips) 611
lizard, effect of prolactin on sloughing cycle after hypophysectomy and thyroidectomy (Chiu & Phillips) 619
lizard, role of prolactin in sloughing cycle (Chiu & Phillips) 625
Ribonucleic acid (RNA), synthesis, action of ACTH on, rat adrenal and liver (Boyadjiev & Hadjiolov) 193
synthesis in bone and kidney, differential stimulation by FTH of, rat (Steinberg & Nichols) 493
transfer, methylases, during T4-induced differentiation, frog tadpole (Pillinger et al.) 547
Ribosomes, from rabbit mammary glands during pregnancy and lactation, analysis of (Herelman et al.) 667
Salinity, effect on branchial Na- and K-activated ATPase, eel (Milne et al.) 177
Salt gland, effects of arginine vasotocin on, goose (Peaker) xxvi
Saturation analysis, of cyclic AMP (Albano et al.) xvii
plasma corticosterone measured by, man (Piyasena et al.) xvi
Sebaceous glands, effect of adrenalectomy and ACTH on activity, rat (Thody & Shuster) 325
effect of hypophysectomy on response to TP, rat (Thody & Shuster) 329
Sebum, effect of adrenalectomy and ACTH on secretion of, rat (Thody & Shuster) 325
effect of hypophysectomy on response of sebaceous gland to TP, rat (Thody & Shuster) 329
increased secretion after neonatal treatment with testosterone, adult female rat (Thody & Shuster) 677
Seminal vesicle, histochemistry during postnatal development, bull (Rama et al.) 259
Serum, concentration of thyroid hormone after thyroid stimulation, man (Williams et al.) xi thyrotophin, influence of methallubine on levels in, rat (Bourke et al.) 569
Sheep, ACTH, vasopressin and oxytocin in foetal and maternal plasma (Alexander et al.) 179
dairy, effect of perphenazine on mammary development and milk yield (Morag et al.) 351
early pregnancy test for (Robertson & Sarda) 407
effect of betamethasone on glucose utilization and oxidation by (Reilly & Ford) 19
effect of progesterone on calcitonin release in (Philippo et al.) vii
insulin secretion, stimulation by 4-phenyloenoic acid (Herteledy et al.) 699
lymph, binding of cortisol by proteins in (Paterson & Hills) 697
ovarian oestrogen secretion around oestrus (Cox et al.) 345
placental permeability to maternal T4 (Hopkins & Thorburn) 549
pregnant, kinetics of progesterone metabolism in (Slotin et al.) xxx
progesterone levels during early pregnancy in normal and hormone-treated (Haynes & Lamming) xxx
prolactin, solid phase radioimmunoassay for (McNeil) 141
Skin, fibroblasts, for assay of anti-inflammatory steroids (Brotherton) xv
metabolism of testosterone by, normal subjects and in testicular feminization (Jenkins & Ash) 315
Sloughing cycle, effect of hypophysectomy, with and without thyrotrophin and ACTH, on, lizard (Chiu & Phillips) 611
effect of prolactin on, hypophysectomized and thyroidectomized lizard (Chiu & Phillips) 619
role of prolactin in, lizard (Chiu & Phillips) 625
Sodium transport, intestinal absorption in duck maintained on fresh water and hypertonic saline (Crocker & Holmes) xviii
Spermatogenesis, effects of prolactin on, hypophysectomized mouse (Bartke) 311
Steroid hormones, adrenal secretion of, two carnivorous marsupials (Weiss & Richards) 263
metabolism in vitro by prostate and testis, dog (Harper et al.) 213
1-oxygenated steroids in urine of infant with adrenocortical carcinoma (Edwards et al.) 181
Steroids, anti-inflammatory, skin fibroblasts for assay of (Brotherton) xv
C₅, 16-unsaturated, excretion and formation in cases of testicular feminization, man (Bicknell & Gower) i
cortisol and 20-dihydrocortisols in cerebral cortex after death by suicide or other causes, man (Brooksbank et al.) xiv
excretion after aminogluthethimide and prednisolone, carcinoma of breast (Lyne et al.) xxi
fate of androsta-4,16-diene-3-one and the origin of 3α-hydroxy-5α-androst-16-ene in plasma and urine, man (Brooksbank & Wilson) iii
3-oxo-4-unsaturated, radioimmunoassay for (Jeffercoat) ii
Testis, C₅, 16-unsaturated steroids in cases of feminization of, man (Bicknell & Gower) i
effects of prolactin and LH on cholesterol stores of, mouse (Bartke) 317
effects of prolactin on spermatogenesis in, hypophysectomized mouse (Bartke) 311
metabolism in vitro of steroids by, dog (Harper et al.) 213
metabolism of testosterone by skin in cases of feminization of (Jenkins & Ash) 515
Testosterone, effect on cold-induced atrophy of genital accessory organs in T₄-treated, castrated rat (Das & Perrault) 591
metabolism in skin in normal subjects and in testicular feminization (Jenkins & Ash) 515
metabolism of steroids in canine prostate and testis after incubation with (Harper et al.) 213
radioimmunoassay for (Jeffercoat) ii
Testosterone propionate (TP), effect of hypophysectomy on response of sebaceous glands to, rat (Thody & Shuster) 329
effect of neonatal administration on hepatic microsomal phospholipid, rat (Toh) 659
effect of neonatal treatment on sebum secretion, adult female rat (Thody & Shuster) 677
effect on anti-aggression pheromone production, spayed mouse (Mugford & Nowell) 225
effect on female offspring of mothers treated during pregnancy with, guinea-pig (Brown-Grant & Sherwood) 277
4-α-Threonine analogues of neurohypophysial hormones, enhanced oxytocin-like activity of (Sawyer & Manning) 151
Thyroid gland, effect of starvation on cell height and goitrogenic response, rat (Doniach & Swettenham) 71
effect of stimulation on thyroid hormone in serum, man (Williams et al.) xi
function, effect on Achilles tendon reflex-time, man (Zamrazil et al.) 403
reduced activity in Jamaicans (Harland et al.) 537
role in cold-induced atrophy of genital accessory organs, T₄-treated and castrated rat (Das & Perrault) 591
thyrotrophin-releasing factor activity, neonatal rabbit (Ślebodziński et al.) 559
uptake of ³²⁵I and ¹³¹I, comparison between, man (McGill et al.) 531
Thyroid hormone, concentration in serum after thyroid stimulation, man (Williams et al.) xi
Thyroidectomy, and hypophysectomy, effect of prolactin on sloughing cycle after, lizard (Chiu & Phillips) 619
Thyrotoxicosis, comparison of two bioassays for LATs in (Ensor et al.) 487
Thyrotrophin, effect on sloughing cycle, hypophysectomized lizard (Chiu & Phillips) 611
serum and pituitary, influence of methallibure on, rat (Bourke et al.) 569
Thyrotrophin-releasing factor, activity, development in neonatal rabbit (Ślebodziński et al.) 559
(hormone), synthetic, man (Ormston et al.) x thyroid hormone in serum after stimulation of thyroid by, man (Williams et al.) xi
Thyroxine (T₄), androgenic response of genital accessory organs after treatment with, rats exposed to cold (Das & Perrault) 591
concentration in serum after thyroid stimulation, man (Williams et al.) xi
differentiation induced by, tRNA methylases during, frog tadpole (Pillinger et al.) 547
placental permeability to maternal, sheep (Hopkins & Thorburn) 549
Toad, Bufo marinus, bladder, effect of chlorpropamide and related compounds on water transport across (Wales) 551
Xenopus laevis, incorporation of [³H]leucine in pars intermedia after change of background (Whur et al.) xxiv
Xenopus laevis, MSH-melatonin antagonism in relation to colour change in (Dierst-Davies et al.) 573
Xenopus laevis, ultrastructure of 'MSH cells' of pars intermedia (Weatherhead et al.) xxv
Transplantation, auto, corpora lutea atretica in ovarian, rat (Welschen) 693
oestrogen requirements of mouse mammary tumours after (Lee) 353
Tri-iodothyronine (T₃), concentration in serum after thyroid stimulation, man (Williams et al.) xi
Tumour, adrenocortical carcinoma, 1-oxygenated steroids in urine of infant with (Edwards et al.) 181
aminogluthethimide and prednisolone, steroid excretion by carcinoma of breast after (Lyne et al.) xxi
oestrogen requirements of transplanted mouse mammary (Lee) 353
Tyrosine, plasma, daily rhythm in, fasting subjects (Cavagnini & Litta-Modignani) 9
tritiated, isolation of oxytocin and vasopressin from posterior pituitary after injection of, into cerebrospinal fluid, rat (Pickering & Jones) 93
Ultrastructure, effect of prolactin and GH on, mammary gland culture, mouse (Hallowes & Wang) v
