CONTENTS OF VOLUME 58

No. 1 July 1973

Zanelli, Joan M., Atkins, D. and Peacock, M. Effect of cysteine on the biological and immunological activity of human and bovine parathyroid hormone ........................................................... 1

Slob, A. K., Goy, R. W. and van der Werff ten Bosch, J. J. Sex differences in growth of guinea-pigs and their modification by neonatal gonadectomy and prenatally administered androgen .................................................. 11

Slanina, Premysl and Tjälve, Hans. Accumulation of nicotine in pancreatic islets and calcitonin-producing cells in mice and chicks demonstrated by micro- and whole-body autoradiography ............................................. 21

Grosvenor, C. E. and Mená, F. Evidence for a time delay between prolactin release and the resulting rise in milk secretion rate in the rat .......................................................... 31

Suei, S. B., Toccafondi, R. S., Malan, P. G. and Ekins, R. P. Binding of thyroid hormones to a soluble fraction from porcine anterior pituitary .................................................. 41

Peters, G. and Houvenaghel, A. Reflex release of milk-ejection activity by stimulation of organs in the pelvic region in sheep as studied by cross-circulation experiments .......................................................... 53

Nagasawa, Hiroshi and Yanai, Reiko. Effects of adrenalectomy and/or deficiency of pituitary prolactin secretion on initiation and maintenance of lactation in mice .................................................. 67

Madill, Denise and Bassett, J. M. Corticosteroid release by adrenal tissue from foetal and newborn lambs in response to corticotrophin stimulation in a perifusion system in vitro .................................................. 75

Wallace, A. L. C., Stacy, B. D. and Thorburn, G. D. Regulation of growth hormone secretion in the ovine fetus .......................................................... 89

Khin Aye Than and McDonald, I. R. Adrenocortical function in the Australian brush-tailed possum Trichosurus vulpecula (Kerr) .................................................. 97

SHORT COMMUNICATIONS

Munshi, Safia R., Purandare, Tarala V. and Rao, Shanta S. Effect of antiserum to ovine luteinizing hormone on uterine cell division during early pregnancy in mice .................................................. 123

Scanes, C. G. and Follett, B. K. The half-life of luteinizing hormone in the circulation of domestic fowl and Japanese quail .................................................. 125

Goulding, Ailsa, Jukes, Christine, McChesney, Ruth and Irvine, R. O. H. Effect of parathyroidectomy on urinary hydroxyproline excretion by subtotally nephrectomized rats .................................................. 127
